Subject: [External] Parking changes on Elm Spring Avenue

Ms. Sanderson,

My name is Lawrence Lauer, myself and many neighbors on my block have concerns about the study of the parking restrictions on our block.

Reasons I am against a change.

The street is narrow if cars are parked on both sides of the street across from each other it will be difficult for emergency vehicles to get through in an emergency as well as the two way traffic flow

Trash pickup may have to be placed away from my house on pickup day because of cars parked in front of my house, or I may have to move them onto my driveway apron which will be a burden on myself and my wife if we need to leave and come back before pickup.

Traffic delays may result during the times of day people who are driving to/from work at the beginning and end of work shifts at the hospital and the Lutheran College.

Not having parking restrictions, may result in many more cars on street and may result accidents or injuries to the numerous children on the block.

Please consider my above opinion in your study. In the future I suggest a more early notification of changes being considered in any area of our city. Some of my neighbors did not receive the notification till this past Saturday.

Thank you,
Lawrence Lauer
