

Owner, Erin Kelly, a Wauwatosa resident, had been in corporate America for over 20 years and lost her job during the pandemic. The loss of the corporate job gave Erin the opportunity to pursue her hobby of making CBD edibles into her dream of becoming a small business owner right in her community. She has a BA of Arts from UW-Oshkosh, a Masters of Organizational Leadership and Quality from Marian, and most recently graduated from St. Louis University's, first-ever, Cannabis Science and Operations Program. She launched her business in September of 2021 and has been doing pop-ups at festivals all over Wisconsin as well as selling online. Erin has been part of the Wauwatosa community since 2016. She lives 2 blocks away from 8932 W North Ave. She specifically chose this location because it is part of the community where she lives, and has dreamed of having a shop of her own close to home.

Kelly's Greens Café is a light and bright CBD shop with a boutique feel. We specialize in Farm Bill compliant, CBD, Delta 8 and 9 gummies, cookies and truffles made with the finest local ingredients. We source our hemp from Pine Hill Farms in Lebanon, Wisconsin. Their farm has been in their family for 150 years, and they grow USDA certified hemp.

We plan on being open from Tuesday-Saturday from 10-6. We expect to have 2 part-time employees along with the owner in the shop to start.

The plan is to have a small commercial bakeshop with a small area for comfortable lounge seating along with an area for our retail products.
