Subject: [External] 68th St Traffic Calming - Thank you!

Hi Mr. May,

I am emailing to say thank you & how excited my family is about the traffic calming improvements planned for 68th st at Meinecke & at Clarke St.

We live on 68th st near the Meinecke intersection and have seen numerous crashes there, including one crash where the car went over the sidewalk & drove into a neighbor's house. My husband (who's home office faces the street) has witnessed many other close calls/ near collisions at that intersection as well.

During the recent traffic calming study we saw a noticeable reduction in excessive speeding. We felt much safer pulling out of our driveway and allowing the children to ride their scooters & bikes on the sidewalks.

I am unable to attend Tuesday's meeting, so I wanted to share my support and appreciation by email.

Thank you,
Lauren
