**Subject:** [External] Traffic Calming on 68th St

Michael,

I live at 2449 N 68th St and want to give my full support for the proposed traffic efforts at the Clark St and Meinecke St intersection. For the period of time the test barrels were in position, it was clear vehicles were slowing down. I also observed less rolling stops at Wright St, and it was safer getting in and out of our driveway during rush hour.

My one concern is people turning left. At first, before the stay right signs were posted, it felt unsafe when drivers would turn left in front of the circle, instead of going around like a round-about. Please make sure some sort of directional signage is posted like you have in the picture in your letter to encourage people to stay right around the island.

Thank you for your work!
