2023 Executive Summary

The mission of the Wauwatosa Sustainability Committee (WSC) is to champion environmentally-sound practices fostering the City's long-term livability and economic vitality. The Committee advises the Common Council and City staff on sustainability matters and collaborates with residents, businesses, and other partners to advance the City's environmental goals.

Energy and associated greenhouse gas (GHG) emissions decreased in Wauwatosa's city-owned facilities in 2023, continuing improvement from previous years. Highlights:

- Reduced purchased electricity use by 12.5% (657,471 kWh) vs. 2022
- Decreased overall GHG emissions by 9.4% (613 tons CO₂e) vs. 2022

Results from 2023 demonstrate the impact of ongoing energy efficiency projects such as improvements to street lighting, the successful operation of the PV solar installation at the DPW building, and annualization of the impacts from the 300 kW PV system at City Hall that started in Spring 2021.

WSC thanks the City's Department of Public Works for its leadership in adopting various energy-efficiency technologies that ultimately benefit local taxpayers and the environment. Year-by-year energy and GHG data illustrate the impact of the investment in efficiency and are especially pronounced in years with spikes in energy prices, as occurred in 2022.

A primary goal for WSC in 2024 is to support the City in funding and hiring a Sustainability Manager to pursue City sustainability goals and participate in partnerships and networks with other communities.

Energy and GHG Results

Wauwatosa City Operations

The City's 2023 energy usage and GHG emissions were 9.1% lower and 9.4% lower, respectively, in 2023 compared to 2022. Energy expenses decreased by 12.1% due to decreased energy use (all fuel types but gasoline) and decreases in price (all types but electricity). Continuing reduction of energy use and increasing onsite electricity generation helps ease the financial impact of volatile energy prices.

	HDD	CDD	Purchased Electricity (kWh)	Natural Gas (Therms)	Gasoline (Gallons)	Diesel (Gallons)	MMBTU	GHG (tons CO ₂ e)	Energy Cost

% Change	11.0%	(11.9%)	(12.5%)	(17.0%)	2.8%	(1.1%)	(9.1%)	(9.4%)	(12.1%)

Looking at the price increases in more detail, most of the decrease in energy cost to the City was due to the reduction in liquid fuel prices. However, all areas contributed to the cost savings.

	Electricity Price (\$/kWh)	Electricity Cost (\$)	Natural Gas Price (\$/Therm)	Natural Gas Cost (\$)	Gasoline Price (\$/Gallon)	Gasoline Cost (\$)	Diesel Price (\$/Gallon)	Diesel Cost (\$)	Energy Cost

% Change	9.5%	(4.2%)	(9.6%)	(25%)	(15.4%)	(13.0%)	(18.9%)	(19.8%)	(12.1%)

The reduction of greenhouse gas emissions (GHG) continued in 2023 with a 9.1% decrease. This is despite a projected [1.1% estimated increase worldwide in 2023](#). The decrease appears to be driven by reductions in electricity and natural gas use, which were down 11.9% and 17.0% respectively. Liquid fuel use stayed relatively flat with a change of less than 1% year-on-year.

Comparing energy use in different years can be challenging due to the circumstances in each year. Energy use will fluctuate due to heating degree days/cooling degree days, snowstorms causing increased fuel use for plowing, and building use or restrictions. Overall spending will change due to price changes in diesel fuel or natural gas in conjunction with fuel use. However, for some of the variables, normalizing the data can help highlight different areas. A specific example of this is natural gas usage for heating buildings. Normalizing the natural gas usage in Therms by Heating Degree Days (HDD) helps to understand the effect of building or equipment improvements. In 2023, the City used 27.1 Therms per Heating Degree day vs. 27.8 Therms / HDD in 2022. Both values are much less than the 2010 baseline of 41.8 Therms / HDD. Overall, Wauwatosa buildings have become much more efficient in their natural gas use. The supporting data section of this report presents a chart of this data.

New solar arrays brought major reductions in net City electricity use in 2020 (DPW) and 2021 (City Hall). In 2023, Wauwatosa continued to reduce purchased electricity use. The City remains poised to reach its 50%-below-2010 target for municipal operations emissions in 2030. Upcoming solar deployments at the Police Department, Muellner Building, and Potter Road pumping station will continue to drive down purchased electricity. Liquid fuel use has been relatively flat since 2010 and will likely remain so for the next few years. But with many electric vehicles of all types now coming to market, attractive low-emission options will soon emerge for the City fleet.

City-Wide Energy Use and Greenhouse Gas Emissions

WSC engaged with WE Energies to provide aggregated data on electricity and natural gas use for Wauwatosa's residential and commercial energy customers. Data is available for 2019 through 2023, and will be updated yearly. The data provides a baseline for the City's energy and GHG reduction targets that are under development. Of note is the 17% decrease in overall GHG emissions in 2023 compared to the pre-pandemic year of 2019. Overall GHG emissions, not including transportation, declined by 8.2% in 2023 vs. 2022.

City operations comprise less than 2% of the city-wide emissions, as represented by the thin red line at the top of each bar in the chart below. While the City Operations staff remains committed to reducing energy use and associated GHG emissions, it is apparent that significant progress is possible only if energy efficiency and renewable energy efforts are directed at both the Commercial and Residential sectors of Wauwatosa. Also, since this analysis is based solely on data from WE Energies, it does not include GHG emissions from transportation fuels. Data from other cities, including Milwaukee's research in 2018, suggest that transportation fuels would add approximately 25% to these values.

WE Energies has made public commitments to decarbonize its electricity generation by 2050. The CO₂ emissions to produce one kWh of electricity have decreased over the past decade due to WE Energies'

conversion of power stations from coal to natural gas. However, to fully decarbonize, WE Energies needs to deploy renewable sources such as wind and solar much faster. As they do so, the GHG impact from Wauwatosa's electricity use will decrease. In 2023, approximately 54% of Wauwatosa's GHG emissions were due to electricity use, and the remaining 46% was due to burning natural gas. As stated previously, this data does not include transportation fuels.

Recycling and Composting Results

The City's solid waste diversion rate decreased from 26% to 25%. During 2023, 15,505 tons of municipal solid waste were collected in the City. Of that, 3,848 tons were diverted for recycling. The biggest challenge to curbside recycling continues to be the contamination of the materials that residents deposit in recycling bins. For example, many residents are still placing plastic bags in their bins. The plastic bags clog the sorting machinery and result in lower recyclable payments to the City. It is in the City's best interest, both financially and environmentally, to purify the recycling stream.

The City collected and composted 7,318 tons of yard waste in 2023. Diverting this material from landfills reduces the total volume of solid waste while providing organic materials such as landscaping mulch and wood chips by the City and available for pickup by Wauwatosa residents. In addition, Wauwatosa businesses and households participated, at their own expense, in private curbside food waste composting services. One such provider, [Compost Crusader](#), reports composting 144 tons of waste for an average of 440 subscribers in Wauwatosa. Organic matter in sanitary landfills decomposes anaerobically to produce methane, a potent greenhouse gas. Studies in other communities report that 2-10% of their overall greenhouse gas emissions are from landfills.

Water Use

The City's water use increased by 5.7% in 2023 vs. 2022. Residential water use increased by 3.1%, with CII (Commercial, Industrial, Institutional) uses increasing by 7.9%. Overall, the City billed for 1.513 billion gallons of water in 2023. Of this, 836 million gallons was for residential use. This equates to 48.5 gallons per capita per day (gpcd), which is typical of older cities in the Midwest and slightly lower than the national average of 52.1 gpcd.

Designations and Partnerships

SolSmart

Wauwatosa became a [SolSmart Gold designee](#) in 2021. The [Solar Energy page](#) on the City's website, created as part of the SolSmart process, is still a valuable resource for residents interested in solar.

Green Tier Legacy Communities

The City has been a member of the DNR-sponsored Green Tier Legacy Communities (GTLC) since 2017. The GTLC gives Wauwatosa access to DNR resources and a network of peer municipalities and non-profits with similar sustainability goals. GTLC members such as La Crosse, Sheboygan, and Wausau are similar in size to Wauwatosa. Sharing with and hearing from these communities as well as larger (Racine) and much smaller ones (Egg Harbor) has been affirming and motivating. The list of GTLC participants can be found [here](#).

In 2023 the GTLC introduced new reporting requirements for member communities. City staff and WSC members gathered 52 metrics across six different areas for the 2022 and 2023 calendar years. Sample results for 2023:

- The City has 8 electric and hybrid vehicles in its fleet of 277 vehicles ("Energy and Emissions").
- The City has 2 publicly accessible electric vehicle charging stations ("Transportation Systems").
- The City has 30 miles of recreational trails and 1,400 acres of green space ("Land Use").
- The City inspected 42% of public stormwater outfalls for illicit discharges ("Water Quality and Conservation").

Wisconsin Local Government Climate Coalition

Wauwatosa is part of the [Wisconsin Local Government Climate Coalition](#) (WLGCC), whose member cities represent 1.7 million Wisconsinites. The WLGCC identifies decarbonization strategies both within their cities and across the state. Statewide strategies include distributed electricity generation policies, building codes, and building performance benchmarking and reporting. Members of WSC have been participating in WLGCC meetings since October 2021.

Milwaukee City-County Task Force on Climate and Economic Equity

In 2020 and 2021, WSC members participated in work groups of the City-County Task Force on Climate and Economic Equity. The Task Force's work culminated in June 2023 with the City of Milwaukee

passing a [Climate and Equity Plan](#), featuring 10 “big ideas” for climate action. This plan will be the basis for regional efforts beyond the City of Milwaukee, including the 2024 EPA Climate Pollution Reduction Grant that Milwaukee is leading and Wauwatosa (among others) is supporting.

Energy Independent Community

Wauwatosa’s 2020 Energy Resolution set a goal for the city to obtain at least 25% of energy for municipal operations from local, renewable sources. This goal included Wauwatosa in a list of Wisconsin [Energy Independent Communities](#).

In 2023, 6.7% of city energy use came from local, renewable sources. Almost three-fourths of this was from the solar arrays on City Hall and the Department of Public Works. The remaining one-fourth was the renewable portion of the electricity Wauwatosa purchases from WE Energies. So Wauwatosa is not on track to meet this goal.

If the Milwaukee Environmental Collaboration Office obtains the Climate Pollution Reduction Grant it is applying for in 2024 (with Wauwatosa’s support), then by 2026 Wauwatosa could be obtaining 100% of its electricity from the Renewable Pathways program. This would get the City to its goal using about 30% of total energy from local, renewable sources.

New/Additional Activities

No Mow May

While it was not a directly stated goal, the Committee identified the practice known commonly as “No Mow May” as a step towards promoting sustainable landscape practices in Wauwatosa. The intent of “No Mow May” is to allow early blooming vegetation for pollinators to consume as a source of dwindling food supplies. The Common Council approved delaying enforcement of grass heights until June, thereby updating an existing code, on December 20, 2022.

No Mow May was observed formally in May 2023. There was no cost other than a nominal fee for a yard sign if desired. Feedback from participants was generally positive. Few, if any, complaints were received. WSC will again support No Mow May in 2024. Participation by City residents and businesses is voluntary.

Sustainability Manager/Coordinator Staff Position

In late 2022, the Common Council adopted a plan presented by Alder Dolan and supported in person by WSC members for the creation of the position of Sustainability Manager to be included within the Department of Public Works. Said position was consistent with the approved Strategic Plan, and the City agreed to adopt the Vision, Missions and Organizational Values contained within the strategic plan as presented to the Committee of the Whole on September 6, 2022.

In coordination with City staff, members of the Wauwatosa Sustainability Committee prepared a draft position description for a part-time sustainability manager position. However, funding for the position was not included in the 2024 budget. At Mayor McBride’s request, a small group representing City staff and WSC members investigated the concept of a shared sustainability staff for several Milwaukee County communities. Many of the sustainability manager’s goals would not be unique to Wauwatosa, and could benefit a larger population base. The City and WSC coordinated with the City of Milwaukee’s Environmental Collaboration Office (ECO) to write a proposal that Mayor McBride shared with the Milwaukee County Intergovernmental Cooperation Council in January 2024. The WSC remains optimistic that a combination of funding sources will allow this position to be created and staffed in 2024.

Wauwatosa Sustainability Committee 2024 Work Streams

1. Maintain and improve an energy/greenhouse gas inventory and reporting framework for the City to use as a baseline for near-term energy and GHG reduction goals. Continue to track WSC activities, meet Green Tier reporting requirements and produce the WSC annual report.
2. Identify and recommend specific policies, actions, or long-range goals which the City can enact or promote consistent with the City's Energy Resolution of October 2020. In particular, support efforts to create a Sustainability Manager position in Wauwatosa or shared between Wauwatosa and other Milwaukee area municipalities.
3. Establish and grow partnerships with City departments and committees, elected officials, civic groups, the Wauwatosa School District, and other communities and organizations that support Wauwatosa's efforts to reduce its overall environmental impact and achieve its sustainability goals.
4. Engage with Wauwatosa residents and businesses to share ideas and practices that enhance sustainability in the community.

Consideration of ordinance amending Chapter 6.08 and creating Chapter 6.10 of the Wauwatosa Municipal Code related to liquor licensing and cigarette and vape store licenses to conform to the provisions of the 2023 Wauwatosa Act 73

Submitted by:

Department:

City Attorney, City Clerk

A. Issue

Shall the City of Wauwatosa amend various provisions of Chapter 6.08 of the Municipal Code related to liquor licensing, and create chapter 6.10 requiring a license for cigarette and vape retailers in order to comply with provisions of 2023 Act 73?

B. Background/Options

By enacting 2023 Act 73, signed by the Governor on December 6, 2023, the legislature made a number of major changes to the laws in Wisconsin relating to liquor, wine and beer manufacturing, distilling, brewing, distribution and retailing. Many consider this to be the single largest change to these state laws since the repeal of prohibition in 1933. While the bulk of its provisions apply to state-regulated portions of the industry and operations of the Wisconsin Department of Revenue, Act 73 also made to substantive changes to local licensing requirements which require ordinance amendments in order to take effect.

The proposed ordinance is intended to make the changes required by Act 73 in order to remain compliant with state law. The local legal impacts required a complete review of the provisions of Chapter 6.08 of our ordinances, and creation of Chapter 6.10. Among the most significant changes at the local level are the following:

1. "Class C" wine license not limited to "restaurants"
2. Creation of a statewide "operator's permit" which can be valid in place of locally issued operator's permits
3. Allowing pre-mixed drinks at "Class B" establishments, including a provision for "to-go" drinks when properly sealed
4. Changes to provisions related to transfers of "Class B" licenses between municipalities
5. "No Sale Event Venue" permits (not likely to impact Wauwatosa significantly)
6. Allowing axe-throwing businesses to have Class "B" beer licenses
7. Extended operating hours for "Class B" premises during national political conventions (RNC July 15 -19, 2024)

8. Adding retailers of “Electronic Vaping Devices” to establishments requiring a local municipal license

Staff also took this opportunity to, where appropriate, eliminate some duplicative language in Ch. 6.08 and to correct some inconsistencies in terminology created by an intern in 1988 when the current Ch. 6.08 was drafted (That former intern is now the current City Attorney).

This draft ordinance does not make any additional substantive changes to liquor licensing beyond those required for compliance with Act 73 and should be adopted in order to maintain consistency with state law. A copy of the draft ordinance and a copy of Act 73 are attached to this file. In addition, we have attached a Wisconsin Legislative Council memorandum explaining all of the changes to state law made by Act 73.

C. Fiscal Impact

It is not expected that the changes will have any significant fiscal impact. We may issue a few more “Class C” wine licenses, but we may issue a few less operator’s licenses. Overall, it is expected that the impact will be minimal in this regard.

D. Recommendation

If acceptable, staff recommends the introduction of an ordinance amending Chapter 6.08 and creating Chapter 6.10 of the Wauwatosa Municipal Code related to liquor licensing and cigarette and vape store licenses to conform to the provisions of the 2023 Wauwatosa Act 73

2. Notwithstanding ss. 125.04 (9) and 125.09 (1), if a manufacturer or rectifier produced, on all manufacturing or rectifying premises operated by the manufacturer or rectifier in this state, a cumulative total of at least 1,500 liters of intoxicating liquor in any one of the 3 preceding calendar years, the manufacturer or rectifier may engage in full-service retail sales on the manufacturing or rectifying premises.

(b) Notwithstanding ss. 125.04 (9) and 125.09 (1), and subject to pars. (d) and (g), if a manufacturer or rectifier produced, on all manufacturing or rectifying premises operated by the manufacturer or rectifier in this state, a cumulative total of at least 1,500 liters of intoxicating liquor in any one of the 3 preceding calendar years, the manufacturer or rectifier may engage in full-service

retail sales at off-site locations identified in the manufacturer's or rectifier's permit. Subject to pars. (f) and (g), the number of retail sales locations a manufacturer or rectifier is allowed in addition to the manufacturing or rectifying premises is determined by the cumulative volume of intoxicating liquor the manufacturer or rectifier produced on all manufacturing or rectifying premises operated by the manufacturer or rectifier in this state in any one of the 3 preceding calendar years, as follows:

1. If the manufacturer's or rectifier's cumulative volume in a year was at least 1,500 liters of intoxicating liquor but less than 5,000 liters of intoxicating liquor, the manufacturer or rectifier may establish one full-service retail outlet.

2. If the manufacturer's or rectifier's cumulative volume in a year was at least 5,000 liters of intoxicating liquor but less than 35,000 liters of intoxicating liquor, the manufacturer or rectifier may establish not more than 2 full-service retail outlets.

3. If the manufacturer's or rectifier's cumulative volume in a year was at least 35,000 liters of intoxicating liquor, the manufacturer or rectifier may establish not more than 3 full-service retail outlets.

(c) 1. Except as provided in subd. 2. and par. (f), a manufacturer or rectifier may make full-service retail sales of alcohol beverages on the manufacturing or rectifying premises and at any of its full-service retail outlets only if the alcohol beverages were purchased by the manufacturer or rectifier from a wholesaler holding a permit under s. 125.28 or 125.54, from a brewer authorized to make sales to retailers under s. 125.29 (3m), from a brewpub authorized to make sales to retailers under s. 125.295 (1) (g), or from a permittee under s. 125.30 authorized to make sales to retailers under s. 125.30 (4).

2. A manufacturer or rectifier is not required to purchase from another permittee intoxicating liquor produced by the manufacturer or rectifier that the manufacturer or rectifier sells at retail on the manufacturing or rectifying premises or at a full-service retail outlet of the manufacturer or rectifier.

3. Subject to subd. 2. and par. (f), a manufacturer or rectifier engaged in full-service retail sales on manufacturing or rectifying premises or at a full-service retail outlet of the manufacturer or rectifier is subject to ss. 125.33 (9) and 125.69 (6) to the same extent as if the manufacturer or rectifier were a retail licensee.

(d) 1. A manufacturer or rectifier may not commence sales of alcohol beverages at a full-service retail outlet unless, prior to commencing such sales, the manufacturer or rectifier receives approval from the municipality in which the full-service retail outlet is located and from the division as provided in par. (g).

2. Subject to par. (f), a municipality may limit the scope of alcohol beverages offered for sale at a full-service retail outlet only with respect to alcohol beverages that are not of the same type as those produced by the per-

son holding the manufacturer's or rectifier's permit. A municipality may not limit the sale, at a full-service retail outlet, of alcohol beverages produced by the person holding the manufacturer's or rectifier's permit. If a municipality limits the scope of alcohol beverages offered for sale, the provision of taste samples is limited to those alcohol beverages authorized to be sold.

3. Except as provided in subd. 2., a municipality's approval under subd. 1. shall be based on the same standards and criteria that the municipality has established by ordinance for the evaluation and approval of retail license applications. A municipality may not impose any requirement or restriction in connection with the approval under subd. 1. that the municipality does not impose on retail licensees.

(e) 1. A manufacturer or rectifier may operate a restaurant at any full-service retail outlet under this subsection and on the manufacturing or rectifying premises.

2. If the manufacturer or rectifier operates a restaurant as provided in subd. 1. and is authorized under this subsection to make retail sales of wine at the restaurant, the manufacturer or rectifier may make retail sales of wine in an opened original bottle, in a quantity not to exceed one bottle, for consumption both at the restaurant and away from the restaurant if all of the following apply:

a. The purchaser of the wine orders food to be consumed at the restaurant.

b. The manufacturer or rectifier provides a dated receipt that identifies the purchase of the food and the bottle of wine.

c. Prior to the opened, partially consumed bottle of wine being taken away from the restaurant, the manufacturer or rectifier securely reinserts the cork into the bottle to the point where the top of the cork is even with the top of the bottle, or securely reattaches the original cap to the bottle, and the cork is reinserted or the cap is reattached at a time other than during the hours in which the manufacturer or rectifier is prohibited under sub. (5) (b) from making retail sales for off-premises consumption.

(f) 1. If a manufacturer or rectifier may establish one or more full-service retail outlets under pars. (b) and (g) and the manufacturer or rectifier also holds a brewer's permit or winery permit or both and, as such, may establish full-service retail outlets under s. 125.29 (7) (b) and (g) or 125.53 (3) (b) and (g), the aggregate number of full-service retail outlets that may be established is the maximum number authorized under par. (b), under s. 125.29 (7) (b), or under s. 125.53 (3) (b), whichever is greatest, but not exceeding 3 full-service retail outlets. Under these circumstances, each authorized full-service retail outlet shall serve as the full-service retail outlet associated with each applicable permit, regardless of whether the permittee would otherwise be entitled to fewer full-service retail outlets when calculated under par. (b) or s. 125.29 (7) (b) or 125.53 (3) (b).

2. If a manufacturer or rectifier may engage in full-service retail sales on the manufacturing or rectifying premises as provided in par. (a) 2. and the manufacturer or rectifier also holds a brewer's permit or winery permit or both, the manufacturer or rectifier may make retail sales on the manufacturing or rectifying premises of fermented malt beverages produced under its brewer's permit or wine produced under its winery permit without first purchasing the fermented malt beverages or wine from a wholesaler holding a permit under s. 125.28 or 125.54 or receiving the fermented malt beverages under authorization of s. 125.29 (3m) (b), 125.295 (1) (g), or 125.30 (4).

3. If a person holds more than one manufacturer's permit or rectifier's permit under this section, or more than one combination permit authorized under s. 125.55 (1), the retail sales authority under this subsection for manufacturing or rectifying premises applies with respect to each permit, but the limit on full-service retail outlets is an aggregate maximum, regardless of the number of permits held.

(g) 1. An application for a manufacturer's or rectifier's permit, including an application for an amendment to the manufacturer's or rectifier's permit, shall specify each full-service retail outlet of the manufacturer or rectifier and particularly describe the premises of the full-service retail outlet.

2. The division shall establish a process for approval of a manufacturer's or rectifier's full-service retail outlet and for revocation of this approval. The division shall approve a manufacturer's or rectifier's full-service retail outlet, and may not revoke this approval, unless the manufacturer or rectifier has violated a provision of this chapter related to full-service retail outlets. The division's failure to approve, or revocation of approval of, a full-service retail outlet described in a manufacturer's or rectifier's application or permit does not affect any other full-service retail outlet or the manufacturing or rectifying premises as described in the application or permit.

3. If the division approves a full-service retail outlet, the manufacturer's or rectifier's permit, as initially issued or as amended, shall particularly describe the premises constituting the full-service retail outlet, which shall be considered part of the premises under the manufacturer's or rectifier's permit.

4. If the division approves a full-service retail outlet, the agent appointed under s. 125.04 (6) for the manufacturer's or rectifier's permit shall also serve as the agent for the full-service retail outlet.

5. Section 125.04 (12) (a) does not apply to a manufacturer's or rectifier's full-service retail outlet. Upon notice to the division, a manufacturer or rectifier may relocate any full-service retail outlet to a new location within this state once per calendar year, except that one full-service retail outlet of a manufacturer or rectifier

may be relocated without limitation on frequency in each calendar year.

(5) CLOSING HOURS. (a) On a manufacturer's or rectifier's premises, no person may sell alcohol beverages at retail for on-premises consumption, provide taste samples of alcohol beverages, or consume alcohol beverages during the closing hours applicable to a Class "B" licensee under s. 125.32 (3) (a). A full-service retail outlet under sub. (4) shall be subject to the same closing hours applicable to a Class "B" licensee under s. 125.32 (3) (a).

(b) On a manufacturer's or rectifier's premises and at a full-service retail outlet, no person may sell alcohol beverages at retail for off-premises consumption during the hours in which a Class "B" licensee in the municipality where the manufacturing or rectifying premises or retail outlet is located may not make retail sales under s. 125.32 (3) (am) and (d).

(c) No member of the public or invited guests may be present on a manufacturer's or rectifier's premises during the closing hours applicable to a Class "B" licensee under s. 125.32 (3) (a).

(d) Activities authorized under a manufacturer's or rectifier's permit related to the production, shipment, transportation, or delivery of alcohol beverages may occur at any time.

INFORMATION MEMORANDUM

IM-2023-08

CHANGES TO THE REGULATION OF ALCOHOL BEVERAGES UNDER 2023 WISCONSIN ACT 73

2023 Wisconsin Act 73 make numerous changes relating to the regulation of alcohol beverages under ch. 125, Stats. (Wisconsin's alcohol beverages chapter). The act also includes a number of provisions related to the enforcement of laws by the Department of Revenue (DOR).

Wisconsin's system for regulating the alcohol beverages industry is commonly referred to as the "three-tier system." The three tiers, or categories, of regulated entities are: (1) manufacturers; (2) wholesalers (or distributors); and (3) retailers. Unless a specific exception applies, all sales of alcohol beverages must occur through the three-tier system, from manufacturers to wholesalers to retailers to consumers. There are also three main types of alcohol beverages: (1) fermented malt beverages (beer); (2) distilled spirits; and (3) wine. In Wisconsin, both distilled spirits and wine are regulated as intoxicating liquors (liquor). The requirements placed upon manufacturers, wholesalers, and retailers vary depending upon the type of alcohol beverage involved.¹

STATE ENFORCEMENT OF ALCOHOL BEVERAGES LAWS AND TAXATION

Reorganizing the Structure of State Agency Enforcement

Current Law

Current law generally provides the DOR with regulation and enforcement authority over the manufacture, distribution, and retail sale of alcohol beverages, as well as the authority to regulate and enforce the taxation of alcohol beverages.² [See ss. 73.03 (24), 125.14, 125.145, and 139.08 (1) and (3), Stats.]

The Act

The act creates the Division of Alcohol Beverages (DAB) as a subunit of DOR. The act provides DAB and its employees with all necessary police powers to prevent violations of Wisconsin's alcohol beverages chapter. Within DAB, there are two separate bureaus dedicated to: (1) enforcement; and (2) legal services, permitting, and reporting. It also creates a unit within DAB dedicated to education and community outreach. The act transfers all of DOR's regulation and enforcement authority over the manufacture, distribution, and retail sale of alcohol beverages,

¹ For an overview of Wisconsin's alcohol beverages laws, please see Legislative Council Information Memorandum, [Overview of Alcohol Beverages Regulations](#) (March 12, 2021).

² For a more thorough discussion of DOR's regulation and enforcement authority over alcohol beverages, please see Legislative Council Study Committee Memorandum, [Department of Revenue's Statutory Authority and Requirements Related to Wisconsin's Alcohol Beverages Chapter](#) (July 16, 2018).

which are found in Wisconsin's alcohol beverages chapter, to DAB. The act also specifies the following:

- DAB must administer Wisconsin's alcohol beverages chapter and have jurisdiction over alcohol beverage regulation, enforcement, and education in the state.
- DAB is responsible for administering regulatory programs; promoting regulatory transparency; promoting statutory changes to create clarity, consistency, and simplicity in alcohol beverage regulatory requirements; and ensuring active consistent enforcement of alcohol beverages laws.

The act **does not** make any changes to DOR's authority related to the taxation of alcohol beverages under ch. 139, Stats. Under the act, DOR retains its current authority related to the taxation of alcohol beverages and the taxation and enforcement of laws related to cigarettes and tobacco.

The following sections describe DAB's organizational structure under the act, as well as provisions that transition authority and duties to DAB.

DAB Administrator and Bureau Directors

The act provides that the DAB administrator is appointed outside of the classified service, the state's civil service system; nominated by the DOR secretary and confirmed with the advice and consent of the Senate; and serves at the pleasure of the DOR secretary. The two bureaus within DAB are each headed by a bureau director, who reports to, and serves at the pleasure of, the DAB administrator. The unit dedicated to education and community outreach is headed by an individual who reports to the DAB administrator.

DAB Employees

Under the act, all DOR positions that are primarily related to alcohol beverages regulation and enforcement, as determined by the DOR secretary, are transferred to DAB on the effective date of the act. In addition, the act transfers a sufficient number of currently vacant authorized full-time equivalent (FTE) positions in DOR to total 20.0 FTE positions in DAB. Of these positions, DAB must have no fewer than 10 alcohol field agents to perform activities under DAB's enforcement bureau.

DAB employees are subject to the state's standards of conduct and conflict of interest prohibitions under the state's ethics code and may not be employed by, or have a substantial financial interest in, the alcohol beverage industry.

Administrator of Division of Income, Sales and Excise Tax Interim Authority

The act provides DOR's administrator of the Division of Income, Sales and Excise Tax with the interim authority to undertake all measures necessary to implement the changes in the act by the effective date of each change, including taking action in preparation for the creation of the DAB and appointment of a DAB administrator and its bureau directors. A discussion of the act's effective dates are provided at the end of this information memorandum.

DAB Assets, Property, and Contracts

To effectuate the creation of DAB and transfer of DOR's alcohol beverages regulation and enforcement authority to DAB, the act also provides all of the following:

- DOR's assets and liabilities primarily related to alcohol beverages regulation and enforcement, as determined by the DOR secretary, become the assets and liabilities of DAB.

- All DOR tangible personal property, including records, that is primarily related to alcohol beverages regulation and enforcement, as determined by the DOR secretary, is transferred to DAB.
- All contracts entered into by DOR that are in effect on the effective date of the act and that are primarily related to alcohol beverages regulation and enforcement, as determined by the DOR secretary, remain in effect and are transferred to DAB. DAB must carry out any obligations under those contracts unless modified or rescinded by DAB, to the extent allowed under the contract.
- The DOR secretary must develop a plan for an orderly transfer from DOR to DAB and must resolve any disagreement between DOR and DAB with respect to any matter related to the transfer.

Other Specified Provisions to Assist in the Transfer of Authority and Duties to DAB

To effectuate the transfer of DOR's alcohol beverages regulation and enforcement authority under the alcohol beverages chapter to DAB, the act clarifies the following:

- Alcohol Beverage Administrative Rules and Orders. All rules promulgated by DOR, and all orders issued by DOR, that relate to alcohol beverages regulation and enforcement that are in effect on the effective date of the act, remain in effect until their specified expiration dates or until amended or repealed, or modified or rescinded, by DAB.
- Pending Matters. Any matter pending with DOR on the effective date of the act that is primarily related to alcohol beverages regulation and enforcement, as determined by the DOA secretary, is transferred to DAB. All materials submitted to or actions taken by DOR with respect to the pending matters are considered as having been submitted to or taken by DAB.
- Permit Fees. All fees established by DOR related to alcohol beverages permits that are in effect on the effective date of the act must remain in effect until modified or rescinded by DAB.³

Issuance and Administration of Licenses and Permits

The act does the following related to the issuance and administration of alcohol beverage licenses and permits:⁴

- Requires an applicant to notify the licensing authority of any changed fact set out in an application within 30 days of the change in fact. Under current law, an applicant must do so within 10 days.
- Requires DAB to annually publish the list of retail licensees on its website. Under current law, the clerk of each municipality must annually provide DOR a list with the name, address, and trade name of each person holding a license issued by that municipality (other than an operator's license or a temporary Class "B" beer license), the type of license held, and, if the licensee is a corporation or limited liability company, the name of the agent.

³ The act also establishes an annual fee of \$500 for any permit for which neither DOR nor the statutes have already established a different fee.

⁴ While much of Act 73 was originally introduced in Senate Amendment 2 to 2023 Senate Bill 268, these provisions were included in the bill as introduced.

- Requires an applicant to pay any fees incurred by DAB for purposes of conducting a criminal history search to determine an applicant's qualifications for a permit.
- Prohibits an applicant or permit holder whose permit has been revoked from reapplying for the permit for a period of six months following revocation.

State Jurisdiction Over Out-of-State and In-State Permittees

Current Law

There are three types of alcohol beverages permits that DOR may issue to a person, corporation, or limited liability company located outside of the state. These permits are: (1) the out-of-state beer shippers' permit; (2) the out-of-state liquor shippers' permit; and (3) the direct wine shippers' permit. Subject to various restrictions, the out-of-state beer shippers' permit authorizes a person located outside of the state to ship beer to a person holding a beer wholesalers' permit. The out-of-state liquor shippers' permit, subject to various restrictions, authorizes a person located outside of the state to ship liquor to a person holding a liquor wholesaler permit, manufacturer's or rectifier's permit, or a winery permit. The direct wine shippers' permit, subject to various restrictions, authorizes a wine manufacturer located either in or outside of the state to ship wine directly to individuals in the state who are of the legal drinking age, acknowledge receipt of the wine shipped, and are not intoxicated at the time of delivery.

The Act

The act requires a person holding an out-of-state beer shippers' permit, out-of-state liquor shippers' permit, or a direct wine shippers' permit who is located outside of Wisconsin to consent to jurisdiction in this state for any proceeding in this state to enforce alcohol beverages laws found in both the alcohol beverages chapter and ch. 139, Stats.

These permittees must also accept service of process in this state for any Wisconsin proceeding to enforce alcohol beverages laws. In order to accept service of process in this state, these permittees must appoint and continually engage the services of an agent in this state and meet specified requirements so that the permittee may accept service in Wisconsin relating to the enforcement of any alcohol beverages law.

The act codifies requirements regarding the payment of occupational taxes, filing reports and tax returns, keeping records, submitting to DAB inspections and examinations, and paying expenses reasonably attributable to these inspections and examinations made by DAB at any premises of the permittee located outside of the state, which is similar to what is required under ch. 139, Stats.

The act also creates the authority for DAB to revoke or suspend any Wisconsin alcohol beverages license or permit if the licensee or permittee ships alcohol into another state in violation of that state's law.

Taxation of Alcohol Beverages

Timing for the Imposition of Alcohol Occupational Taxes

Current Law

Under current law, Wisconsin generally imposes an occupational (excise) tax on the sale of beer and liquor in Wisconsin, or shipment of the product into the state.⁵ The occupational tax on beer is paid by the following: (1) a brewery, brewpub, or bottler; (2) an out-of-state shipper who ships beer into Wisconsin from other states; and (3) a beer wholesaler who imports beer into Wisconsin from a foreign country. [ss. 139.02 and 139.05 (1) and (2), Stats.]

Similarly, the occupational tax on liquor which is paid by the following: (1) a manufacturer, rectifier or winery; (2) a direct wine shipper who ships wine to individuals in Wisconsin; (3) an out-of-state shipper who ships liquor into Wisconsin from other states; and (4) a Wisconsin liquor wholesaler who imports liquor from a foreign country. [ss. 139.03, 139.035, and 139.06 (1) (b), Stats.]

The statutes provide numerous exceptions to the imposition of occupational taxes on both beer and liquor. For example, no occupational tax is imposed upon either of the following:

- The sale or shipment of beer by a brewer to a bottler.
- The sale or shipment of liquor in bulk between manufacturers, rectifiers, and wineries. Liquor sold in bulk must have a label or statement affixed to it stating that the shipment is made for the purpose of bottling or rectifying.

[ss. 139.04 (4) and 139.06 (3), Stats.]

The Act

The act adds an exception to provide that no occupational tax may also be imposed upon the sale or shipment of beer between brewers. The act also amends the exception to the occupational tax for liquor sold or shipped between manufacturers, rectifiers, and wineries. Under the act, no occupational tax may be imposed on liquor sold **in bulk or any state of packaging** between manufacturers, rectifiers, and wineries. The act also provides that a manufacturer or rectifier shipping liquor to another manufacturer, whether in bulk or in any state of packaging, must affix a label or statement that the shipment is a tax-exempt transfer.

Taxation and Production of Gluten-Free Beer and Hard Seltzers as Beer

Current Law

Currently, products such as gluten-free beers and hard seltzers are classified as “beer” under federal law, but classified as “intoxicating liquor” under Wisconsin law. As a consequence, these products are subject to a higher tax rate and must be made by a person holding a manufacturer’s or winery permit.⁶ Specifically, federal law defines “beer” as:

[B]eer, ale, porter, stout, and other similar fermented beverages
(including sake and similar products) of any name or description

⁵ For more information about the occupational tax for beer and liquor, see DOR, [Alcohol Beverage Tax Information](#), Publication 303 (12/21).

⁶ See [DOR on Tap](#), February 2023.

containing one-half of one percent or more of alcohol by volume, brewed or produced from malt, wholly or in part, or from any substitute for malt.

[27 C.F.R. s. 25.11]

In contrast, state law defines beer, or “fermented malt beverages,” as “any beverage made by the alcohol fermentation of an infusion of potable water of barley malt and hops, with or without grains or decorticated and degerminated grains or sugar containing 0.5 percent or more of alcohol by volume.” [s. 125.02 (6), Stats.]

The Act

The act adds to the state’s definition of “fermented malt beverages” any beverage that is recognized by the federal Department of the Treasury as “beer” under 27 C.F.R. Part 25, except sake or similar products. This change allows gluten-free beers and hard seltzers that are classified as beer under federal law to also be classified as “beer” under state law and thus to be subject to the state’s lower taxation rate for beer. It also allows these products to be manufactured under a brewer’s or brewpub permit.

PROVISIONS RELATED TO ALCOHOL BEVERAGES MANUFACTURERS

Brewers, Wineries, Manufacturers, and Rectifiers: Retail Sales Authority

Current Law

Under current law, brewers, wineries, manufacturers, and rectifiers (“producers”)⁷ may engage in limited retail sales of alcohol beverages to consumers, as described below.

A brewer’s permit allows the retail sale of beer at two locations: the brewer’s premises and a separate, off-site retail location established by the brewer. At those locations, a brewer may sell beer manufactured by the brewer or other Wisconsin brewers either for off-premises consumption, if sold in original unopened packages, or for on-premises consumption. A brewer may operate a restaurant at either location (but not at any other location) and may provide consumers with free samples. A brewer is not required to obtain municipal approval for the off-site retail location. A brewer may not obtain a retail license, although a brewer that held a liquor retail license on June 1, 2011, may maintain that license. [s. 125.29 (3), Stats.]

A winery must obtain a liquor retail license in order to make retail sales to consumers. Specifically, a winery may be issued either one “Class A” liquor retail license⁸ or one “Class B” liquor retail license⁹ for the winery premises or other real estate owned or leased by the winery. However, in order to obtain a “Class B” liquor retail license, the winery must be capable of producing at least 5,000 gallons of wine per year in no more than two locations. A winery may

⁷ Brewpubs also manufacture alcohol beverages but are treated differently, particularly with respect to authorized retail sales, as is discussed below.

⁸ A “Class A” liquor retail license authorizes the retail sale of liquor in its original package or container for off-premise consumption. Similarly, a Class “A” beer retail license authorizes the retail sale of beer in its original package, container, or bottle for off-premise consumption. “Class A” liquor and Class “A” beer licenses are most commonly used by package stores, liquor stores, and grocery stores. For more information on retail licenses, see Legislative Council Issue Brief, [Alcohol Beverage Retail Licenses](#) (September 2022).

⁹ Generally, a “Class B” liquor retail license authorizes the retail sale of liquor by the glass and not in the original package or container for either on- or off-premise consumption. A Class “B” beer retail license authorizes the retail sale of beer for on-premise consumption or for off-premise consumption. “Class B” liquor and Class “B” beer licenses are most commonly used by bars, taverns, and restaurants.

not make retail sales from an off-site location. A winery license also authorizes the provision of free taste samples from the winery's premises. [ss. 125.51 and 125.53, Stats.]

A manufacturer's or rectifier's permit allows the retail sale of liquor that is manufactured or rectified on its premises for consumption on or off the premises. It also authorizes the provision of free taste samples of liquor that it produced on the premises. A manufacturer or rectifier may not make retail sales from an off-site location, but a person may obtain up to two manufacturer's or rectifier's permits. Manufacturers and rectifiers may also obtain a Class "A" or Class "B" beer retail license. [ss. 125.52 (1) (b) 2. and (7) and 125.69 (1), Stats.]

The Act

The act makes all of the following changes to current law: (1) expands the ability of producers, as defined above, to make retail sales on the production premises; (2) allows producers to establish full-service retail outlets dependent on the producer's maximum production in any of the three previous calendar years; and (3) modifies the hours during which producers are prohibited from making retail sales to match those that are applicable to a Class "B" beer retailer. These changes are discussed in greater detail below.

Retail Sales From Premises

The act generally creates a more uniform standard for retail sales for brewers, wineries, manufacturers and rectifiers. Specifically, any of these producers may sell their alcohol beverages from the premises, and if a producer meets specified production thresholds, that producer may also make retail sales of types of alcohol beverages other those it manufactures.

Under the act, a producer may make retail sales of alcohol beverages that it manufactured on its premises or on other premises of the producer, for on-premises or off-premises consumption. In addition to selling alcohol beverages manufactured on the its premises, a producer that meets specified production thresholds may engage in full-service retail sales from the manufacturer's premises. Those production thresholds are the following:

- For a brewer, at least 250 barrels of beer in any of the three preceding calendar years.
- For a manufacturer or rectifier, 1,500 liters of liquor.
- For a winery, 1,000 gallons of wine.

Full-service retail sales is defined as retail sales of beer or liquor, for on-premises or off-premises consumption, and the provision of taste samples of beer or liquor. If a producer is eligible to make full-service retail sales and engages in the sale of alcohol beverages other than those manufactured on the premises, the producer must purchase those alcohol beverages from a permitted beer or liquor wholesaler or from a brewer, brewpub, or out-of-state beer shipper authorized to make sales to retailers. Because the act allows certain producers to engage in full-service retail sales, it eliminates the option for a producer to also hold a retail license.¹⁰

Full-Service Retail Outlet

The act allows producers that meet specified production thresholds to establish between one and three full-service retail outlets and make full-service retail sales from those premises, subject to the approval of the municipality and DAB.

¹⁰ A brewer may sell liquor from their premises if the brewer held a license or permit authorizing the retail sale of liquor at the location on June 1, 2011; the liquor has been purchased from a permitted liquor wholesaler; and the brewer is not eligible to make full-service retail sales at the location.

A producer's authority to operate full-service retail outlets is based on its cumulative maximum production in any of the preceding three calendar years, as follows:¹¹

- One outlet to any of the following: (1) a brewer that has produced at least 250 barrels of beer; (2) a winery that has produced at least 1,000 gallons of wine; or (3) a manufacturer or rectifier that has produced at least 1,500 liters of liquor in a year.
- Two outlets to any of the following: (1) a brewer that has produced between 2,500 and 7,500 barrels of beer; (2) a winery that has produced between 5,000 and 25,000 gallons of wine; or (3) a manufacturer or rectifier that has produced between 5,000 and 35,000 liters of liquor in a year.
- Three outlets to any of the following: (1) a brewer that has produced more than 7,500 barrels of beer; (2) a winery that has produced at least 25,000 gallons of wine; or (3) a manufacturer or rectifier that has produced more than 35,000 liters of liquor in a year.

Any alcohol beverages sold by a producer, other than those manufactured by the producer, must be purchased from a permitted wholesaler or from a brewer, brewpub, or out-of-state beer shipper authorized to make sales to retailers. A producer is subject to the same requirements and penalties relating to purchasing alcohol beverages from a permitted wholesaler as a retailer.¹²

As was mentioned, a producer must obtain the approval of both the municipality in which the full-service retail outlet is located and DAB. The municipality's approval must be based on the same standards and criteria that the municipality has established by ordinance for the evaluation and approval of retail license applications; a municipality may not impose requirements or restrictions on a producer that it does not impose on retail licenses. Municipalities may limit the scope of alcohol beverages that the producer may offer for sale at the outlet, but only with respect to alcohol beverages that are not the same type as those produced by the producer.

DAB must approve an application for a retail outlet, and may not revoke that approval, unless the producer has violated a provision of ch. 125, Stats., related to full-service retail outlets. Denial of approval or revocation of the approval of a retail outlet does not affect any other retail outlet operated by the producer. If DAB approves an outlet, the permit must particularly describe the premises constituting the retail outlet; these premises are then considered part of the premises under the producer's permit.

Upon notice to DAB, a producer may relocate a full-service retail outlet to another location in the state. One location may be relocated without limitation on frequency; any other location may be moved to a new location once per calendar year.

The act also allows a producer to operate a restaurant on its premises and at any full-service retail outlet operated by the producer.

¹¹ A producer that holds more than one type of manufacturing permit—such as a brewer's permit and a manufacturer's permit—may not establish more full-service retail outlets, in the aggregate, than it would be allowed to establish under any single permit, and may not exceed three full-service retail outlets.

¹² Brewers that also hold a manufacturer's, rectifier's, or winery permit may make retail sales on the brewery premises of liquor produced under the manufacturer's, rectifier's, or winery permit without first purchasing the liquor from a liquor wholesaler.

Brewer's Off-Site Retail Outlet

Under current law, a brewer's permit authorizes, the sale of beer to consumers from an off-site retail outlet for on-premises or off-premises consumption. [s. 125.29 (3) (e) and (f), Stats.]

The act allows the operation of an off-site retail outlet only by brewers that are not otherwise eligible to engage in full-service retail sales. Current law allows a brewer to operate a restaurant at an off-site retail outlet, but only allows the sale of beer manufactured under the brewer's own brewer's permit.

Brewers, Wineries, Manufacturers, and Rectifiers: Closing Hours

Current Law

Current law specifies when a retailer is prohibited from selling alcohol beverages for on-premise and off-premise consumption, commonly referred to as "closing hours." For example, a retailer that sells alcohol beverages for on-premises consumption, a Class "B" beer, a "Class B" liquor, or a "Class C" wine-only retailer, must generally be closed between the hours of 2:00 a.m. and 6:00 a.m., Monday through Friday, or between 2:30 a.m. and 6:00 a.m., Saturday or Sunday. A Class "A" or Class "B" beer retailers is prohibited from selling beer in an original unopened package, container, or bottle for consumption away from the premises between the hours of midnight and 6:00 a.m.; a "Class A" liquor retailer is prohibited from selling liquor for off-premise consumption between 9:00 p.m. and 6:00 a.m., though municipalities may establish more restrictive hours. [ss. 125.32 (3) and 125.68 (4) (c), Stats.]

Regarding closing hours for alcohol beverages manufacturers, a brewpub is required to obtain a retail license and is thus subject to the same closing hours described. A winery that has been issued a "Class B" liquor license must be closed for retail sales between the hours of 9:00 p.m. and 8:00 a.m. Current law does not specifically address the closing hours for retail sales made by a brewer, manufacturer, or rectifier. [ss. 125.295 (2) (a) 4. and (3) (c), 125.68 (4) (c) (3m), Stats.]

The Act

The act establishes more uniform closing hours for retailers and producers by subjecting producers to the same closing hours that apply to a Class "B" beer retailer in the municipality where the producer's premises or off-site retail location is located. The act prohibits producers from doing the following during closing hours:

- Selling alcohol beverages at retail for on-premises consumption, providing taste samples, or allowing consumption of alcohol beverages on the premises of the producer or any full-service retail outlet.
- Selling alcohol beverages at retail for off-premises consumption on the premises of the producer or any full-service retail outlet.
- Allowing any member of the public or invited guest to be on the premises of the producer.

Brewers, Manufacturers, Rectifiers, and Wineries: Taste Samples Provided on Retail Premises

Current Law

The statutes allow brewers and certain retailers to provide free taste samples on a retailer's premises. Samples may only be provided in limited quantities between the hours of 11:00 a.m. and 7:00 p.m. Quantities of samples are limited as follows:

- A brewer or Class "A" retailer may provide up to two samples of beer per person of up to three ounces in volume on the retailer's premises. The retailer must have purchased the beer from a wholesaler; if a brewer provides the samples, the brewer must have purchased the samples from the retailer. The municipality may establish more restrictive tasting hours by ordinance. [ss. 125.25 (1) and 125.33 (12), Stats.]
- A "Class A" retailer may provide one free taste sample per person of distilled spirits of up to half an ounce in volume. The retailer must have purchased the spirits from a wholesaler. A manufacturer, rectifier, winery, or out-of-state liquor shipper may assist the retailer. [s. 125.51 (2) (am), Stats.]
- A "Class A" retailer may provide up to two free taste samples of wine per person of up to three ounces in volume. The retailer must have purchased the wine from a wholesaler. A municipality may prohibit the provision of wine taste samples. [s. 125.06 (13), Stats.]

The Act

The act expands the ability of brewers, manufacturers, rectifiers, and wineries to offer free taste samples on a retailer's premises. Under the act, a brewer may provide free taste samples on the premises of a Class "A" or Class "B" retailer, while a manufacturer, rectifier, or winery may provide free taste samples on the premises of a "Class A," "Class B," or "Class C" retailer.

The ability to provide free taste samples is subject to restrictions in hours and in quantity. Samples may be provided between the hours of 11:00 a.m. and 7:00 p.m., and may be provided in the following quantities: for wine, up to two samples of three ounces in volume; for distilled spirits, one sample of half an ounce in volume; and for beer, up to two samples of three ounces in volume. The alcohol beverages used for the samples must be either purchased by the producer from the retailer or produced by the producer and brought to the retailer's premises. A producer is prohibited from leaving any leftover alcohol beverages on a retailer's premises, other than those purchased from the retailer.

Brewers, Wineries, Manufacturers, and Rectifiers: Other Authorized Retail Activities

Current Law

Under current law, the permit of a brewer, winery, manufacturer, or rectifier authorizes the manufacturing of specified types of alcohol beverages and certain activities related to manufacturing.

The Act

The act allows the following additional activities for producers (other than brewpubs):

- A producer may transport alcohol beverages between the production premises and any depot, warehouse, or full-service retail outlet maintained by the producer, or any other permitted premises of the producer.
- A producer may sell, ship, transport, or deliver alcohol beverages, in bulk or in any other state of packaging, to another producer that holds a permit that allows production of the same type of alcohol beverages.
- A manufacturer, rectifier, or winery may sell or transfer liquor to, or receive liquor from, another permitted manufacturer, rectifier, or winery for purposes of further manufacturing, bottling, or storage.

Brewpubs: Authorized Activities

Current Law

Under current law, the authorized activities for brewpubs are different than those for brewers. A brewpub may operate up to six locations as part of a brewpub group; it must hold a Class “B” beer retail license and operate a restaurant on the premises, which must sell beer brewed by a Wisconsin brewer. A brewpub may manufacture beer on the premises of the brewpub and engage in certain activities related to manufacturing, but may not produce more than 10,000 barrels of beer per year and must manufacture all beer on the premises. Requiring production to occur on the brewpub premises prevents a brewpub from engaging in contract brewing. A brewpub may sell up to 1,000 barrels of beer per year in original, unopened packages directly to retailers. [s. 125.295, Stats., and DOR, [Brewpub Permits](#), Fact Sheet 3112 (August 16, 2022).]

The Act

The act includes the following provisions related to brewpubs:

- Increases the manufacturing limit from 10,000 barrels of beer per year to 20,000.
- Increases a brewpub’s self-distribution limit from 1,000 barrels of beer per year to 2,000.
- Eliminates the requirement that the entire manufacturing process occur on the brewpub premises and allows brewpubs to engage in contract brewing.
- Allows a brewpub to sell beer from another brewpub, or that of a brewer, to meet the requirement of selling beer other than that brewed by the brewpub at the brewpub’s restaurant.
- Allows a brewpub to sell, ship, transport, or deliver, in bulk or any state of packaging, beer manufactured by the brewpub to another brewpub.

Brewers: Licensing Exception for Beer Provided on Brewery Premises

Current Law

Under current law, a brewer is not required to obtain a license or permit to furnish beer free of charge to customers, visitors, and employees on the brewery premises, as long as the beer is consumed on the brewery premises and is not furnished or consumed in or near any room or place where liquor is sold. [s. 125.06 (1), Stats.]

The Bill

The act expands this licensing exception by eliminating the requirements that the beer is consumed on brewery premises and is not furnished or consumed in or near any room or place where liquor is sold.

Manufacturers and Rectifiers: Limits on the Number Permits Held by One Person

Current Law

Under current law, DOR is prohibited from issuing more than two manufacturers' or rectifiers' permits to one person, and from issuing more than two liquor wholesalers' permits to one person. [ss. 125.52 (7) and 125.54 (6), Stats.]

The Act

The act repeals both of these prohibitions.

All Alcohol Beverages Manufacturers: Production Agreements

Current Federal Law

The U.S. Department of the Treasury, Alcohol and Tobacco Tax and Trade Bureau (TTB) allows beer, distilled spirits, and wine to be manufactured through contract production or alternating proprietorship agreements.¹³ With respect to beer, for example, TTB Industry Circular 2005-2, described a contract brewing agreement as follows:

A **contract brewing arrangement** is a business relationship in which one person, such as a wholesale or retail dealer or a brewer, pays a brewing company, the "contract brewer," to produce beer for him or her. The contract brewer is entirely responsible for producing the beer, keeping appropriate brewery records, labeling the beer with its name and address, obtaining necessary certificates of label approval (COLAs), and paying tax at the appropriate rate upon removal of the beer from the brewery. The contract brewer retains title to the beer at least until the beer is taxpaid or removed from the brewery. TTB considers contract brewing arrangements to be ordinary commercial arrangements.

[TTB, [Industry Circular 2005-2](#); (emphasis added).]

In contrast, in an alternating proprietorship agreement, two or more people use the same physical premises and equipment of a brewery to manufacture beer. The TTB described an alternating proprietorship agreement as follows:

An "**alternating proprietorship**" is a term we use to describe an arrangement in which two or more people take turns using the physical premises of a brewery. Generally, the proprietor of an existing brewery, the "host brewer," agrees to rent space and equipment to a new "tenant brewer." The tenant qualifies as a brewer under [27 C.F.R. Part 25] by filing the appropriate documents with TTB. The tenant produces beer, keeps appropriate brewery records, labels the beer with its own name and

¹³ See TTB, [Industry Circular 2005-2](#), [Industry Circular 2008-4](#), and [Industry Circular 2018-3](#).

address, obtains the necessary COLAs, and pays tax at the appropriate rate upon removal of its beer from the brewery. The tenant brewer has title to the beer at all stages of the brewing process.

Alternating brewery proprietorships allow existing breweries to use excess capacity and give new entrants to the beer business an opportunity to begin on a small scale, without investing in premises and equipment. Regulations in [27 C.F.R. Part 25] do not refer to this type of arrangement. However, in the mid-1980s, ATF began approving applications for alternate methods and procedures that allow two or more brewers to alternate the use of brewery premises and equipment.

[TTB, [Industry Circular 2005-2](#).]

Current State Law

While contract brewing agreements and alternating proprietorship agreements are permitted by the TTB under federal law, Wisconsin statutes are silent regarding these brewing arrangements. The administrative code, however, details the requirements necessary in order for persons to engage in contract brewing arrangements. Specifically, s. Tax 7.23 (1) (a), (e), and (f), Wis. Adm. Code, defines both the brewer manufacturing the beer and the person holding the beer recipe to be brewers. The brewer directly manufacturing the beer for another brewer is defined as the “production brewer,” and the person who contracts with an agent to directly manufacture the beer is defined as the “recipe-brewer.” Because the production brewer and the recipe-brewer are both defined as brewers, both must obtain a brewer’s permit. [s. Tax 7.23 (4) (a), Wis. Adm. Code.] According to DOR, a person holding a brewpub permit is prohibited from engaging in contract brewing arrangements. [DOR, *DOR On Tap: An Alcohol Industry Update*, [Hold My Beer Recipe](#) (Aug. 2021).]

Regarding contract brewing agreements, all of the following apply to the brewer’s permit process:

- An application for a brewer’s permit must include a certification by the recipe-brewer as to both of the following:
- The recipe-brewer is contracting with a production brewer to produce beer.
- The contract between the recipe-brewer and production brewer specifically provides that the production brewer is an agent of the recipe-brewer and the recipe-brewer has retained the right to control the work contracted for.
- An application for a brewers permit must designate the premises where the beer will be manufactured as the exclusive permitted brewery premises and provide the permit number of the production brewer.
- A brewer’s permit issued or renewed is specific to the premises of the production brewer. The same brewery premises are described in the brewer’s permit applications for both the production brewer and recipe-brewer. If the recipe-brewer seeks to have beer manufactured at multiple locations, it must submit a brewer’s permit application for each new premises.
- The production brewer obtains a federal label and federal brewers notice from TTB.

- The recipe-brewer is the brewer required to file Wisconsin beer tax returns and file monthly reports to DOR regarding beer manufactured, received, sold, delivered, or shipped in the preceding month.

[s. Tax 7.23 (4) (b) - (h), Wis. Adm. Code.]

With respect to liquor being produced through contract production or alternating proprietor agreements, DOR issued a declaratory ruling on May 11, 2023, that the statutes do not prohibit these types of agreements. Prior to this ruling, DOR had interpreted s. 125.52 (3), Stats., as prohibiting these types of production agreements. In the declaratory ruling, DOR found that s. 125.52 (3), Stats.:

[D]oes not explicitly prohibit production agreements for the rectification and manufacture of intoxicating liquor, such as alternating proprietorships and contract production, between two properly permitted rectifiers.... Rulemaking will be required to codify this decision and create a process for state oversight of this industry practice to ensure public safety, fairness across the industry, and proper tax payment.

The Act

The act codifies the authority for a brewer, brewpub, winery, manufacturer, or rectifier to produce alcohol beverages by means of contract production,¹⁴ alternating proprietorship,¹⁵ or licensing agreement,¹⁶ and further specifies certain requirements for and consequences of such an arrangement. These arrangements must be established by written agreement, which generally may be entered into only by producers holding the same type of alcohol beverages manufacturer's permit. Specifically, the act provides the following:

- **Contract production arrangements.** The “contract producer” manufactures, bottles, or labels the alcohol beverages, which are purchased from the contract producer by the “recipe producer” or “out-of-state recipe supplier.” A recipe producer generally holds the same type of Wisconsin permit as the contract producer, while an out-of-state recipe supplier is a person located in another state that produces alcohol beverages in that state. The alcohol beverages produced under a contract production arrangement count toward the production volume of the recipe producer, except they may not be considered for purposes of determining the alcohol beverages manufacturer's retail sales authority (i.e., full-service retail authority discussed above). The recipe producer is considered the producer for purposes of taxation and reporting to the DAB.
- **Alternating proprietorship arrangements.** A “host producer” provides its production facility to a “guest producer” for the guest producer to use to produce the guest producer's alcohol

¹⁴ The bill defines “contract production” to mean “a contract, agreement, or business arrangement described in [the bill] whereby a recipe producer or out-of-state recipe supplier provides consideration to a contract producer for the production, bottling, or labeling of alcohol beverages.”

¹⁵ The bill defines “alternating proprietorship” to mean “an arrangement in which a host producer provides use of space and equipment, and may additionally provide personnel, to a guest producer for the production of alcohol beverages.”

¹⁶ The bill defines a “licensing agreement” as an agreement between a licensor and a producer for the production of alcohol beverages containing the name, symbol, or mark of the licensor.

beverages. The act specifies that alcohol beverages produced under an alternating proprietorship count toward the production volume of the guest producer, and the guest producer is considered the producer for purposes of taxation and reporting to the DAB.

- Licensing agreements. A producer enters into a written licensing agreement with a licensor authorizing the producer-licensee to use the licensor's trademark or name if the producer-licensee is entirely responsible for producing the alcohol beverages and for all related processing steps and regulatory requirements.

The act also specifies that a producer entering into a contract production arrangement, alternating proprietorship arrangement, or licensing agreement does not act as an agent for or in the employ of another with respect to certain provisions of current law.

PROVISIONS RELATED TO THE DISTRIBUTION AND SHIPPING OF ALCOHOL BEVERAGES

Beer Wholesalers: Transfer of Permits to Another Premises in the State

Current Law

Under current law, alcohol beverages licenses and permits, including beer wholesaler's permits, generally may be transferred only to another place or premises within the same municipality. In comparison, a liquor wholesaler's permit may be transferred to another premises within the state. [ss. 125.04 (12) and 125.28 (3), Stats.]

The Act

Under the act, both beer and liquor wholesalers may transfer their permits to another premises anywhere within the state.

Liquor Wholesalers: Limits on the Number Permits Held by One Person

Current Law

As previously mentioned, under current law, DOR is prohibited from issuing more than two manufacturers' or rectifiers' permits to one person and from issuing more than two liquor wholesalers' permits to one person. [ss. 125.52 (7) and 125.54 (6), Stats.]

The Act

The act repeals both of these prohibitions.

Cooperative Wholesalers

Current Law

A small winery is defined as a winery that produces and bottles less than 25,000 gallons of wine in a calendar year. Between October 1 and December 31, 2008, DOR was authorized to issue up to six liquor wholesalers' permits to small winery cooperatives. To qualify, a small winery was required to hold a direct shipper's permit and be certified by DOR as a small winery. Small wineries that qualified could organize cooperatives and collectively hold a cooperative wholesaler's permit. A cooperative wholesaler's permit authorizes the sale and distribution of wine to retailers and other permitted wholesalers, and the principal purpose of a cooperative wholesaler must be to sell and distribute wine manufactured, blended, or mixed, and also

bottled, by its members. Cooperative wholesalers must purchase wine on consignment from its members to be resold to retailers and other wholesalers. [s. 125.545, Stats.]

The Act

The act makes the following changes related to cooperative wholesalers:

- For purposes of participating in a cooperative wholesaler, increases the production limit as to what constitutes a small winery from 25,000 gallons in a calendar year to 50,000 gallons.
- Allows small manufacturers, in addition to small wineries, to obtain a liquor wholesaler's permit as a cooperative wholesaler. A small manufacturer is a manufacturer or rectifier that produces and bottles less than 50,000 gallons of intoxicating liquor (other than wine) in a calendar year.
- Allows DAB to issue cooperative wholesalers' permits for a period of time following the act's effective date. The act retains the limit of six total cooperative wholesaler's permits, but allows DAB to issue new cooperative wholesaler's permits and renew existing wholesaler's permits from the act's effective date until the first day of the seventh month following the effective date.
- Allows cooperative wholesalers to sell and distribute any form of intoxicating liquor made by its members to retailers and other wholesalers.

Direct Wine Shipping, Fulfillment Houses, and Common Carrier Shipments

Current Law

Current law authorizes a person holding a direct wine shipper's permit, subject to various restrictions, to ship wine directly to an individual in this state who is of the legal drinking age, who acknowledges receipt of the wine shipped, and who is not intoxicated at the time of delivery. The annual fee for the permit may not exceed \$100. A direct wine shipper's permit may be issued to any person who manufactures and bottles wine on premises covered by any of the following:

- A manufacturer's or rectifier's permit issued by DOR.
- A winery permit issued by DOR.
- A winery license, permit, or other authorization issued to the winery by any state from which the winery will ship wine into this state.
- A federal basic permit for a winery.

Containers of wine shipped to an individual in this state by a direct wine shipper's permittee must be clearly labeled to indicate that the package may not be delivered to an underage person or to an intoxicated person. No individual may resell, or use for a commercial purpose, wine that was shipped by a direct wine shipper's permittee. Also, no individual in this state may receive more than 108 liters of wine annually that was shipped by a direct wine shipper. [s. 125.535, Stats.]

The Act

Direct Wine Shipping and Fulfillment Houses

The act creates a fulfillment house permit, which authorizes a person to provide services for the warehousing, packaging, order fulfillment, and shipment of alcohol beverages produced by and belonging to a direct wine shipment permittee.

Under the act, a fulfillment house permittee must ensure that all containers of wine shipped directly to an individual in this state are labeled with all of the following information:

- The words “CONTAINS ALCOHOL: SIGNATURE OF PERSON AGE 21 OR OLDER REQUIRED FOR DELIVERY.”
- The name, address, and permit number of the fulfillment house permittee.
- The name, address, and permit number of the direct wine shipper permittee on whose behalf the wine is shipped.

The act prohibits a fulfillment house permittee from shipping wine into this state from any person not holding a direct wine shipper's permit. A fulfillment house permittee may ship wine in this state only by using a common carrier that holds a common carrier permit issued by DAB. Prior to shipping wine to an individual in this state, a fulfillment house permittee must verify the validity of the direct wine shipper's permit and common carrier permit associated with the direct-to-consumer shipment.

The penalty for a fulfillment house that fails to obtain a permit before shipping wine into this state is a fine of not more than \$10,000. The penalty for a fulfillment house shipping alcohol beverages other than wine obtained from a direct wine shipper permittee is a forfeiture of not more than \$2,000; DAB must also revoke the permit of a fulfillment house that violates this prohibition in more than one month during a calendar year.

The act requires a fulfillment house permittee to submit a monthly report to DAB that includes all of the following information for each shipment of alcohol beverages during the preceding month:

- The name and address of the manufacturer of the alcohol beverages.
- The name and address of the consignor of the shipment, if different from the manufacturer.
- The name and address of the consignee of the shipment.
- The date of the shipment.
- The type and quantity of alcohol beverages shipped to the consignee.
- The parcel tracking number for the shipment.

DAB must keep confidential the name and address of the consignee and the parcel tracking number, but other information in the reports is not confidential and is subject to the public records law. A fulfillment house permittee must maintain all records related to the reports for three years. The penalty for failing to submit a required report is a forfeiture of not more than \$2,000.

The act allows a direct wine shipper permittee to arrange with a fulfillment house to ship wine on the direct wine shipper permittee's behalf only if the fulfillment house holds a fulfillment house permit. A direct wine shipper permittee may only use a common carrier holding a common carrier permit to ship wine directly to an individual in Wisconsin.

Common Carrier Shipments

The act creates a common carrier permit and prohibits a common carrier from transporting or delivering alcohol beverages into or within this state, other than to an alcohol beverages licensee or permittee, unless the common carrier first obtains a permit from DAB. This permit authorizes a common carrier to transport or deliver into or within this state wine on behalf of a person holding either a: (1) direct wine shipper's permit; or (2) a fulfillment house permit. A common carrier must pay an annual permit fee of \$1,000; the penalty for failing to obtain a common carrier permit prior to commencing delivery of alcohol beverages in this state is a fine of not more than \$10,000.

Under the act, a common carrier who ships any alcohol beverages other than wine obtained from a direct wine shipper permittee or fulfillment house permittee is subject to a forfeiture of not more than \$2,000. DAB must revoke the common carrier's permit if the common carrier violates this prohibition in more than one month during a calendar year.

The act also requires a common carrier permittee to submit a monthly report to DAB that includes all of the following information for each shipment of alcohol beverages during the preceding month

- The name and address of the manufacturer of the alcohol beverages.
- The name and address of the consignor of the shipment, if different from the manufacturer.
- The name and address of the consignee of the shipment.
- The date of the shipment.
- The type and quantity of alcohol beverages shipped to the consignee, as reported to the common carrier.
- The parcel tracking number for the shipment.

DAB must keep confidential the name and address of the consignee and the parcel tracking number, but other information in the reports is not confidential and is subject to the public records law. A common carrier required to submit reports under the act must maintain all records related to the reports for three years. The penalty for failing to submit a required common carrier report is a forfeiture of not more than \$2,000.

Transporting Homemade Beer and Wine Into Wisconsin for Competitions

Current Law

Current law authorizes homemade wine and beer¹⁷ that is made as authorized under state law to be used for purposes of exhibition, demonstration, judging, tasting, sampling, contest, or competition, if it is done so at a private residence or on retail licensed premises. Current law sets forth restrictions under which such events may occur, including a prohibition on any fee charged for the consumption of the homemade wine or beer. [s. 125.06 (3) and (3g), Stats.]

¹⁷ For purposes of the Alcohol Beverages Chapter, the making of "homemade" wine or beer, or both, means the wine or beer is "made by a person's own efforts and not for a commercial purpose, but does not require that the wine or fermented malt beverages be made in the person's home." [s. 125.02 (6m), Stats.]

The Act

The act provides that a person who made homemade wine or beer outside of Wisconsin may transport up to 10 gallons of homemade wine or beer into the state, without the need to obtain a license or permit, for purposes of participating in a competition or exhibition that complies with state law regarding these competitions, is held by a national organization, and has participants from more than 25 states.

PROVISIONS RELATED TO RETAILERS

Transferring Retail Liquor Licenses From One Municipality to Another

Current Law

Current law authorizes the transfer of up to three “Class B” liquor retail licenses from one municipality to a neighboring municipality, with certain conditions. The transfer has the effect of decreasing the transferring municipality’s quota¹⁸ and increasing the receiving municipality’s quota. Specifically, all of the following conditions must be met:

- The transferring municipality must be contiguous with or located within two miles of the receiving municipality.
- A municipality may transfer no more than three “Class B” liquor licenses under this exception.
- The transferring municipality must have issued at least one license itself before transferring a license to a neighboring municipality.

Also under current law, the transferring municipality must establish a fee, in an amount not less than \$10,000, for initial issuance of a transferred license. The receiving municipality must remit the fee received to the transferring municipality. [s. 125.51 (4) (e), Stats.]

The Act

The act eliminates the requirement that the two municipalities must “be contiguous with, or within two miles of” each other. Under the act, the requesting municipality and the transferring municipality must be “located in whole or in part in the same county.”

“Class C” Wine-Only Retail Licenses

Current Law

Under current law, a “Class C” wine-only license authorizes the sale of wine by the glass or in an opened original container for consumption on the premises where sold. This type of license may be issued only to a restaurant where the sale of alcohol beverages accounts for less than 50 percent of gross receipts and, if the licensee has a barroom, the licensee does not sell distilled spirits in the barroom. Also, a “Class C” wine-only license may not be issued to a foreign

¹⁸ “Class B” liquor licenses are subject to a quota system that limits the number of licenses that a municipality may issue. A municipality’s quota is calculated as the sum of the number of “Class B” liquor licenses granted or issued in good faith and in force on December 1, 1997, and the number of reserve “Class B” liquor licenses the municipality may issue. Very generally, a municipality’s number of reserve licenses is based on its population growth, previous number of licenses issued, and any licenses transferred to or by the municipality. [s. 125.51 (4), Stats.]

corporation, a foreign LLC, or a person acting as agent for or in the employ of another. [s. 125.51 (3m), Stats.]

The Act

The act eliminates the limitations, described above, under which a “Class C” wine-only license may be issued. Under the act, a “Class C” wine-only license may be issued to any person otherwise qualified to hold an alcohol beverages retail license.

Penalty for Retailer Purchases of Beer From Nonwholesalers

Current Law

Generally, alcohol beverages must be distributed by an authorized wholesaler before they may be sold by a retailer to consumers. Accordingly, retailers generally may not purchase beer or liquor from, or possess beer or liquor purchased from, any person other than a permitted beer or liquor wholesaler.¹⁹

Any retailer who purchases or possesses liquor in violation of this provision is subject to a forfeiture of up to \$100 if the total volume of liquor purchased or possessed is 12 liters or less in one month or a forfeiture of between \$1,000 and \$10,000 if the total volume of liquor is more than 12 liters in one month. However, a “Class B” liquor licensee who purchases liquor from a “Class A” liquor licensee for resale, or who possesses liquor purchased from a “Class A” liquor licensee for resale, may be fined up to \$100. Any retailer who purchases or possesses beer purchased from any person other than a permitted beer wholesaler is subject to a fine of up to \$10,000 or imprisonment for up to nine months, or both. [ss. 125.33 (9) and 125.69 (6), Stats.]

The Act

The act modifies the penalties for beer retailers who purchase beer from a person other than a permitted beer wholesaler to create a penalty structure similar to that for liquor retailers. Specifically, a retailer who purchases, or possesses beer purchased, from any person other than a permitted beer wholesaler is subject to a forfeiture of up to \$100 if the total volume purchased or possessed in one month is 4,320 fluid ounces or less, and is subject to a fine of up to \$10,000 or imprisonment or both if the total volume in one month is greater than 4,320 fluid ounces. However, a Class “B” beer retailer who purchases beer, or possesses beer purchased for resale, from a Class “A” beer retailer may be fined up to \$100.

Leaving a Restaurant With Unfinished Bottles of Wine

Current Law

Under current law, a “Class B” liquor or “Class C” wine-only license authorizes the retail sale of one bottle of wine in an opened original bottle, for consumption both on and off the premises, if all of the following apply: (1) the licensed premises is a restaurant that is also operated under a “Class B” liquor or “Class C” wine-only license, and the purchaser of the wine orders food to be consumed on the licensed premises; (2) the licensee provides a dated receipt that identifies the purchase of the food and bottle of wine; and (3) the licensee securely reinserts the cork to the point where the top of the cork is even with the top of the bottle before the opened, partially consumed bottle of wine is taken off the licensed premises. [s. 125.51 (3r), Stats.]

¹⁹ Retailers may also purchase beer from brewpubs and certain brewers that have manufactured the beer distributed.

The Act

The act allows licensees and producers that are authorized to engage in full-service retail sales and that operate a restaurant to either securely reinsert the cork or securely reattach the original cap to the bottle.

Selling Pre-Mixed Cocktails

Current Law

Current law authorizes a “Class B” liquor licensee to sell liquor by the glass, and not in the original container, for consumption on the premises. Such a licensee may also sell liquor for consumption off the premises as a “cocktail to go” if the licensee seals the container of liquor with a tamper-evident seal before it is removed from the premises. However, retailers are generally prohibited from pre-mixing cocktails for retail sale. DOR considers a person who pre-mixes and bottles or kegs cocktails to be a rectifier. The definition of “rectifier” includes a person who, “after rectifying and purifying distilled spirits, by mixing such spirits with any materials, manufactures any spurious, imitation or compound liquors for sale.” A permit is required to become a rectifier. [s. 125.02 (16) (c), Stats., and [DOR on Tap](#), November 2021.]

The Act

The act allows “Class B” liquor retailers, on their licensed premises, to prepare, store, and dispense mixed drinks containing intoxicating liquor in advance of sale, for consumption on the premises or as a “cocktail to go,” if all of the following apply:

- The mixed drink is provided to the consumer in a glass or other container not exceeding 72 ounces in volume.
- The mixed drink has not been stored in a container for more than 48 hours prior to its sale to a consumer.
- If the mixed drink is stored in or dispensed from a container exceeding 1.75 liters in volume, the container does not exceed five gallons in volume and complies with certain labeling requirements in a form prescribed by DAB, which must include information such as the ingredients of the batch and expiration date.
- The licensee has complied with the current law requirement that liquor be purchased only from a liquor wholesaler.
- The licensee has not stored the mixed drink in or dispensed the mixed drink from a wine bottle, and has ensured compliance with state laws that generally prohibit refilling an original container with alcohol and possessing diluted liquor or refilled original containers.
- The licensee has complied with any other applicable state or federal food safety regulation and with any federal alcohol regulation.

The act also excludes “Class B” liquor retailers that prepare, store, or dispense mixed drinks in advance of sale in compliance with these requirements from the definition of “rectifier.”

Eliminating the “Other Business” Restrictions for Retailers With an Axe-Throwing Facility

Current Law

Very generally, current law provides that a Class “B” beer retail license may not be issued for any premises where any “other business” may be conducted.²⁰ Also under current law, a retailer may not allow a person under the age of 21 (underage person) to enter or be on the retail licensed premises unless the person is accompanied by his or her parent, guardian, or spouse who is at least age 21. While current law provides different exceptions to both of these prohibitions, the following are examples of exceptions to both prohibitions: (1) hotels; (2) bowling centers; (3) movie theaters; and (4) painting studios. [ss. 125.07 (3) (a) and 125.32 (3m), Stats.]

The Act

The act creates an exception for an axe-throwing facility to both the prohibitions on “other business” and unaccompanied underage persons on the premises of a retail licensed premises. The act defines an “axe throwing facility” to mean “an establishment that provides customers with a venue to engage in the activity of axe throwing and that either derives at least 51 percent of its revenue from fees associated with axe throwing or maintains at the venue at least five axe throwing lanes.”

Extending Retailer Closing Hours During 2024 National Political Convention

Current Law

Under current law, a Class “B” beer, a “Class B” liquor, and a “Class C” wine-only retail licensed premises must generally be closed between the hours of 2:00 a.m. and 6:00 a.m., Monday through Friday, or between 2:30 a.m. and 6:00 a.m., Saturday or Sunday.

The Act

The act extends the closing hours during which retailers located in a “southeast Wisconsin municipality”²¹ must close during a 2024 national political convention held in Milwaukee. Specifically, from the first day of the convention until the day after the convention’s last day, the closing hours in a southeast Wisconsin municipality must be between 4:00 a.m. and 6:00 a.m., for any of the following: (1) a Class “B” beer, “Class B” liquor, or “Class B” wine-only retail licensed premises; or (2) any producer’s full-service retail outlet.

The act also provides that a southeast Wisconsin municipality may establish a process to designate, and may so designate, that any licensed premises or producer’s full-service retail outlet as ineligible or disqualified for the extended hours specified above. A southeast Wisconsin municipality may establish a process to opt-out of these extended hours.

²⁰ The “other business” restriction generally also applies to “Class B” liquor retail licensees because a person must hold a Class “B” beer retail license before the person may be issued a “Class B” liquor retail license. The other business restriction does not apply to temporary “Class B” liquor licenses as a person does not need to hold a Class “B” beer retail license in order to obtain a temporary “Class B” liquor license. [s. 125.51 (3) (f), Stats.]

²¹ “Southeast Wisconsin municipality” is defined by the bill to mean “[a city, village, or town] any part of which is located within Kenosha, Racine, Walworth, Rock, Milwaukee, Waukesha, Jefferson, Dane, Ozaukee, Washington, Dodge, Columbia, Sheboygan, or Fond du Lac County.”

CONSUMING ALCOHOL BEVERAGES IN PUBLIC PLACES AND PRIVATE EVENTS

Current Law

Current law generally prohibits an owner, lessee, or person in charge of a “public place” from permitting the consumption of alcohol beverages on the “premises”²² of the public place unless the person has an appropriate retail license or permit. Current law does not define what constitutes a “public place” for purposes of this prohibition. DOR interprets the term “public place” to be dependent upon the nature of the event hosted on the property. Specifically, DOR considers whether the event is limited to personally invited guests known to the host and not open to the general public. As long as alcohol beverages are not sold, either directly or indirectly, and the event is limited to personally invited guests known to the host and not open to the general public, then an alcohol beverages retail license is not required under DOR’s interpretation.²³

The general prohibition described above is subject to certain exceptions. This prohibition does not apply to municipalities, buildings and parks owned by counties, regularly established athletic fields and stadiums, school buildings, campuses of private colleges at the place and time an event sponsored by the private college is being held, churches, premises at State Fair Park, or clubs.²⁴ [s. 125.09 (1), Stats.]

Current law also imposes a quota on the number of “Class B” liquor licenses that a municipality may issue. This quota is generally determined by a formula based on the number of licenses previously issued by the municipality and the municipality’s population. Current law also provides a limited number of quota exceptions. Some exceptions are considered “above-quota” licenses because the issuing municipality must first have issued a number of liquor licenses equal to or exceeding its quota and have no more liquor licenses available. [s. 125.51 (4), Stats.]

The Act

Consuming Alcohol at Public Places

The act provides that an owner, lessee, or person in charge of a “public place” may not permit the consumption of alcohol beverages on the “property” of the public place, unless the person has the appropriate retail license or permit, or a no-sale event venue permit created by the act. The act also makes the following changes:

- Defines a “public place” for purposes of the prohibition on the consumption of alcohol beverages on public property, to include a venue, location, open space, room, or establishment that is any of the following: (1) accessible and available to the public to rent for an event or social gathering; (2) held out for rent to the public for an event or social gathering; or (3) made available for rent to a member of the public for an event or social gathering.

²² The alcohol beverages chapter defines “premises” to mean the area described in a license issued by a municipality, or permit issued by DOR, for the sale of alcohol beverages. [s. 125.02 (9), (13) and (14m), Stats.]

²³ For more information on DOR’s interpretation of “public place” for purposes of s. 125.09 (1), Stats., please see Legislative Council Study Committee Memorandum, [Items for Consideration Related to Alcohol Consumption at Certain Private Events](#) (August 15, 2018).

²⁴ This prohibition also does not apply to the consumption of beer on commercial quadricycles, except in municipalities that have adopted ordinances prohibiting this activity. [s. 125.09 (1), Stats.]

- Provides exceptions to the prohibition on the consumption of alcohol beverages on public property for any of the following:
 - A room in a hotel, motel, or bed and breakfast that is used for overnight accommodations.
 - Vacation rental property, or any other property of temporary lodging, that is used for overnight accommodations if the property is furnished with sufficient beds for all adult guests to sleep.
 - A campsite on a campground licensed by the Department of Agriculture, Trade and Consumer Protection.
 - A parking lot, driveway, or yard where vehicles may be parked on the same day as a professional or collegiate sporting event, or other ticketed event open to the public.
 - Property located within a local professional football stadium district (Brown County) if the property is used in connection with, and on the same day as, a professional football game, or other ticketed event open to the public, held at the football stadium.
 - Property located within a local professional baseball park district (Milwaukee, Ozaukee, Racine, Washington, and Waukesha Counties) if the property is used in connection with, and on the same day as, a professional baseball game held at the baseball park.

Creating No-Sale Event Venue Permits

The act creates a “no-sale event venue permit” that is issued by DAB and authorizes property owners to rent or lease real property for use as an event venue where beer and wine are consumed for up to six days per year and one day per month. In general, a no-sale event venue permit may be issued to a person who holds a retail license. However, a no-sale event venue permit may not be issued to a person who holds a permit as a brewer, brewpub, winery, manufacturer or rectifier, beer wholesaler, liquor wholesaler, out-of-state beer shipper, or out-of-state liquor shipper. DAB must establish an annual fee for a permit, which must be calculated to cover DAB’s administrative costs.

Under the act, a no-sale event venue permittee is generally authorized to do any of the following:

- Allow the renter or lessee of the event venue to bring the renter’s or lessee’s own beer and wine onto the event venue and serve it to guests without charge.
- Allow the guests of the renter or lessee to bring beer and wine onto the event venue to be consumed by the guests without charge.
- Allow the renter or lessee to obtain temporary Class “B” and “Class B” licenses for an event held on the event venue and sell beer and wine under the temporary licenses on the event venue. The renter or lessee may sell alcohol beverages to guests or attendees, including charging admission, but may not allow the possession of distilled spirits. If there are 20 or more people on the event venue, service of beer and wine must be performed by a licensed bartender.
- Allow the renter or lessee to contract with a licensed caterer that also holds a Class “B” and “Class B” licenses for the caterer to provide beer and wine to the renter or lessee and guests without charge on the event venue. If the renter or lessee contracts with a caterer, the renter or lessee and guests may not bring alcohol beverages onto the event venue. The renter or lessee must first purchase the beer and wine in a face-to-face transaction on the caterer’s retail licensed premises. The caterer may then deliver and serve the alcohol beverages at the event venue, but service must be performed by licensed bartenders.

The act also prohibits a no-sale event venue permittee from doing any of the following:

- Selling or otherwise providing alcohol beverages to either the renter or lessee of the event venue, or a guest or attendee of the event.
- Allowing any person to possess distilled spirits on the event venue when the event venue is being used by a renter or lessee.

Quota Exception for Opting-Out of No-Sale Event Venue Permits

The act creates an above-quota exception for an event venue that is certified by DAB as meeting certain criteria to be considered a “qualifying event venue.” Under the act, a “qualifying event venue” is real property that is rented or leased for use as an event venue for private events, and in the prior 12-month period, both of the following apply:

- There were at least five events held at the venue at which at least 50 invited guests attended.
- The venue owner received at least \$20,000 in revenue from renting or leasing the venue for these events.

For six months after the effective date of the act,²⁵ DAB must certify an owner of a “qualifying event venue” as eligible for the quota exception if all of the following apply:

- The venue is and has been in operation for the 12-month period immediately preceding the date of the application.
- The venue has not been a “Class B” liquor licensed premises during the 12-month period immediately preceding the date of the application.
- The venue owner has not applied for a no-sale event venue permit.
- The venue owner provides documentation to DAB that the municipality in which the venue is located has reached its liquor license quota and is unable to issue a “Class B” liquor license to it.
- The venue owner provides documentation showing, and DAB confirms, that the venue meets the definition of a “qualifying event venue” and has been in operation as required above.
- The venue owner provides notice to DAB within 60 days after the act’s effective date that the owner is applying for a “Class B” license and is not seeking a no-sale event venue permit.

Under the act, DAB must act on an application for certification within 30 days of the application. A municipality may only issue an above-quota “Class B” liquor license under this quota exception if the license application is received within six months after the act’s effective date. The act also provides that if the “Class B” liquor license issued under this quota exception is revoked or not renewed, the municipality may only reissue the license if all of the following apply:

- The licensee sells or transfers ownership of the licensed premises or a business operated on the licensed premises.
- The license is surrendered or not renewed in connection with the sale or transfer of the property or business.

²⁵ This provision of the act has a two-year delayed effective date, taking effect on the first day of the 25th month beginning after publication, as do the provisions related to no-sale event venue permits and the consumption of alcohol beverages in public places.

- The licensee continued to operate the licensed premises as a qualifying event venue, as defined by the act, from the time of license issuance until the time the license is surrendered or not renewed.
- The license is reissued for the same location.
- The applicant for reissuance of the license satisfies the requirements to hold the license.
- The applicant certifies to the municipality that the applicant will continue to operate the licensed premises as a qualifying event venue.

RESTRICTIONS ON RELATIONSHIPS BETWEEN MANUFACTURERS, WHOLESALERS, AND RETAILERS

Tied-House Law

Current Law

Wisconsin's "tied-house law" restricts the relationship between brewers, brewpubs, beer wholesalers, and Class "B" beer retailers. It generally prohibits a brewer, brewpub, or beer wholesaler from providing a Class "B" beer retailer with anything "of value," such as furniture, equipment, or money. There are, however, several exceptions. For example, brewers, brewpubs, and beer manufacturers may provide Class "B" beer retailers with tap handles.

The Act

The act creates a new exception to the tied-house law to allow a brewer, brewpub, or beer wholesaler to enter into a landlord-tenant relationship with a Class "B" retailer if specified requirements are satisfied, including that the landlord has no control over or day-to-day involvement in the retailer's business.

Interest Restrictions

Current Law

The statutes maintain a three-tier system through numerous regulations that specify or restrict how manufacturers, wholesalers, and retailers may interact with one another. Those restrictions generally prohibit a permittee or licensee from holding an interest in a permit or license of another tier of that same alcohol beverages type.²⁶

DOR rules provide examples of prohibited direct and indirect interest restrictions applicable to manufacturers, rectifiers, liquor wholesalers, and liquor retailers. For example, immediate family members who reside in the same household may not have "effective control" in both a wholesaler and retailer. [s. Tax 8.87, Wis. Adm. Code.]

The Act

The act standardizes language regarding interest restrictions and expands the restrictions to apply across tiers and alcohol beverages types. The restrictions apply to: production permittees (brewers, brewpubs, manufacturers, rectifiers, wineries, out-of-state beer shippers, or out-of-

²⁶ The language for the restrictions differs in the statutes. For example, brewers are prohibited from holding a Class "A" beer license, Class "B" beer license, beer wholesaler's permit, or an ownership in any wholesaler, or a brewpub permit, while beer wholesalers generally may not "hold or have a direct or indirect ownership interest" in a premises that holds a beer retail license or permit, brewer's permit, or brewpub permit.

state liquor shippers); distribution permittees (beer and liquor wholesalers); and retail permittees (Class “A”, Class “B”, “Class A”, “Class B”, and “Class C” licensees; Class “B” or “Class B” permittees; and no-sale event venue permittees), and to any restricted individual²⁷ of a production, distribution, or retail permittee.

Specifically, the act establishes the following restrictions:

- Production permittees may not hold any interest²⁸ in a distribution permittee,²⁹ a retail licensee or permittee, or a no-sale event venue permittee.³⁰
- Distribution permittees may not hold any interest in a retail licensee or permittee, a production permittee, an out-of-state beer or liquor shipper permittee, or a no-sale event venue permittee.³¹
- Retailers may not hold any interest in a distribution permittee or production permittee.³²

However, the act specifies certain permissible interests. First, it allows a licensee or permittee to be owned in part, or to grant an ownership interest to, a restricted investor in another tier if all of the following requirements are satisfied:

- No single restricted investor holds an ownership interest of more than 10 percent in the licensee or permittee.
- No restricted investor serves as an officer, director, manager, operator, or agent of the licensee or permittee.
- No restricted investor is involved in the day-to-day operations of the licensee or permittee or exerts any control over such operations beyond the person’s ability to vote as an owner.
- The aggregate amount of ownership held by all restricted investors in the licensee or permittee does not exceed 49 percent.
- The licensee or permittee discloses all restricted investors to DAB.
- Each restricted investor executes an affidavit swearing to a complete lack of involvement in the day-to-day operations of, and lack of control over, the licensee or permittee beyond the restricted investor’s ability to vote as an owner.

Second, as was mentioned, the act allows a brewer, brewpub, or beer wholesaler to enter into a landlord-tenant relationship with a Class “B” retailer if specified requirements are satisfied,

²⁷ A restricted individual is any of the following: a person identified on a manager’s license or who works or acts in a managerial capacity for a permittee or licensee; a person serving as an officer, director, member, manager, or agent of a corporation or limited liability company holding a permit or license; or a person who holds more than a 10 percent ownership interest in a permittee or licensee.

²⁸ Employment in a nonmanagerial capacity for a licensee or permittee is not considered an interest in the licensee or permittee.

²⁹ The bill maintains a current law provision that allows brewers to take temporary control and operation of a wholesaler that has been granted designated distribution rights for a brand in a designated sales area, but is unable to serve the area for any reason. [s. 125.29 (2) (b) 3., Stats.]

³⁰ The bill maintains a current law exception under which brewpubs must hold a Class “B” beer license for the restaurant on the brewpub premises and may hold a “Class B” liquor or “Class C” wine license. [s. 125.295 (3), Stats.]

³¹ The bill maintains a current law exception for beer wholesalers holding an interest in a brewer on July 1, 2011.

³² The bill maintains a current law exception that requires brewpubs to hold a Class “B” beer license.

including that the landlord has no control over or day-to-day involvement in the retailer's business.

Third, the act specifies that a spouse may have an interest in a license or permit of the other spouse if the marriage is governed by a valid marital property agreement or prenuptial agreement, which is disclosed on any license or permit application and provided to the municipal clerk or DAB prior to the issuance of the license or permit, and both spouses execute an affidavit swearing to a complete lack of involvement in the day-to-day operations of, and lack of control over, each respective business. Accordingly, the act also repeals DOR rules related to prohibited direct and indirect interest restrictions for liquor.

OPERATORS' PERMITS

Current Law

Under current law, to serve alcohol at a licensed or permitted retail premises, an individual generally must hold an operator's license, issued by a municipality.³³ Generally, the municipality must issue an operator's license to an applicant who meets the following qualifications:

- The applicant is at least 18 years of age when the license is issued.
- The applicant has successfully completed an approved responsible beverage server training course.
- The applicant has not been convicted of a felony that substantially related to the licensed activity or be a habitual law offender of laws substantially related to the licensed activity.
- The applicant has paid the relevant fee.

The applicant need not successfully complete the server training course if the applicant is renewing an existing operator's license, has completed the training course within the last two years, or has held a retail license, manager's license, or operator's license anywhere in Wisconsin within the last two years. No municipality may require an applicant undergo any additional training, but may require the applicant to purchase at cost materials that deal with relevant local subjects not covered in the course. [s. 125.04 (5) (a) and (d) and (6), Stats.]

Once issued, an operator's license is valid only in the municipality where issued. The municipality must determine whether the license is valid for one or two years, and must also establish by ordinance the fee for the license. [s. 125.17 (3), Stats.]

The Act

The act creates an operator's permit, issued by DAB, that is similar to an operator's license. The primary difference is that the operator's permit is valid in all Wisconsin municipalities. Under the act, DAB must issue an operator's permit to any applicant who meets the same qualifications applicable to operator's licenses listed above. DAB must determine whether the operator's permit is valid for one or two years, and must determine the fee for the operator's permit. DAB also may not require an applicant undergo any additional training, but may require the applicant to purchase at cost materials that deal with relevant local subjects not covered in the course.

³³ Municipalities may also issue temporary operator's licenses and provisional operator's licenses. [s. 125.17 (4) and (5), Stats.]

SAFE RIDE PROGRAM

Current Law

Under current law, the Department of Transportation awards Safe Ride grants to a county, municipality, or nonprofit corporation, as defined by current law, to cover the cost of transporting persons suspected of having a prohibited blood alcohol concentration for any licensed alcohol beverages retail establishment to the person's residence, or to cover the costs of advertising the availability of such services. These grants are funded from a \$50 surcharge imposed upon certain operating while intoxicated convictions. [ss. 85.55 and 346.657, Stats.]

The Act

The act increases the surcharge from \$50 to \$75 for violations that occur on or after the effective date of the act. The act also requires DAB to provide any person first issued a Class "B" beer or "Class B" liquor retail permit after the effective date of the act with information about the Safe Ride program; similarly, a municipality is required to provide information about the Safe Ride program to any person initially issued a Class "B" beer, "Class B" liquor, or "Class C" wine-only license.

DELAYED EFFECTIVE DATE

All provisions of the act take effect on the first day of the fifth month beginning after publication, except as follows:

- The following take effect on the day after publication:
 - Provisions related to the transferring of authority to regulate alcohol beverages from DOR to DAB.
 - Provisions related to extending retailer closing hours during a 2024 national political convention.
- The repeal of DOR's rule regarding direct and indirect interest restrictions takes effect on the first day of the month commencing after publication.
- The following have a 12-month delayed effective date, taking effect on the first day of the 13th month beginning after publication:
 - Provisions related to operators' permits.
 - Provisions related to fulfillment houses and common carriers.
 - Provisions related to an annual fee of \$500 for any permit for which neither DOR nor the statutes have already established a different fee.
 - Provisions related to cooperative wholesalers.
- Provisions related to no-sale event venue permits and the consumption of alcohol in public places have a two-year delayed effective date, taking effect on the first day of the 25th month beginning after publication.

Consideration of ordinance amending Chapter 1.04 of the Wauwatosa Municipal Code to define modified ward boundaries for the purpose of compliance with new legislative maps, to be applied to current and future aldermanic districts

Submitted by:

Alan Kesner, City Attorney
Steven Braatz, City Clerk

Department:

City Attorney, City Clerk

A. Issue

Shall the City adopt new ward boundaries in advance of the 2024 fall election cycle and 2026 change in council size in order to conform to 2023 Act 94, which re-drew Wisconsin legislative districts?

B. Background/Options

Following continued litigation over legislative boundaries based upon the 2020 decennial census, the Wisconsin legislature passed 2023 Act 94, signed by the Governor on February 19, 2024, which once again re-drew state legislative district boundaries statewide. Unfortunately, the legislature and courts had continued to use pre-2020 ward boundaries in Wauwatosa. Which means that in many places the new legislative boundaries split our current election wards as defined in sec. 1.04 of the ordinances. As was done previously, Wauwatosa voters were placed by Act 94 into four different assembly districts, which also places our voters into three separate state senate districts.

This was done in the last re-districting act as well, so in 2022 the common council approved ordinances creating a number of “sub-wards” so that individual ballots can conform to appropriate state legislative districts. As an example, Ward 2, as created by ordinance through the regular redistricting process in 2021, was divided into Ward 2A and Ward 2B. However, the new redistricting does not use the same “old” ward boundaries.

In order to match the ward boundaries to the Act 94 legislative districts, we are required to create new sub-wards in wards 8 and 9, and we can re-combine the sub-wards which had been previously created in wards 9, 20 and 21, because those wards are no longer split by state legislative boundaries. Sub-wards created in wards 2, 4, 6 & 12 remain necessary and will be unchanged.

To add another layer of complication from Act 94, the city of Wauwatosa is switching to twelve aldermanic districts in 2026. In order to accomplish this, the council separately passed O-23-01 on January 17, 2023, which re-defined the wards within each of the twelve newly-defined aldermanic districts. This ordinance used the 2022 wards and sub-wards, but is not intended to be effective until the 2026 spring elections. So that not-yet-effective ordinance must also be modified with the new ward and sub-ward definitions required due to Act 94.

The attached ordinance draft is intended to accomplish amendment of the current aldermanic districts with the new sub-wards required due to passage of Act 94, and also amends the not-yet-in-effect O-23-01 provisions defining twelve aldermanic districts by wards and sub-wards in a manner which complies with the legislative district boundaries in Act 94.

It is important to note that, through all of this, the aldermanic districts will not change, just the wards within each district. The current aldermanic districts are the same as they were upon redistricting in 2021, based upon the 2020 decennial census. And the twelve aldermanic districts to be effective in the 2026 spring election are the same as when they were designated by the common council in January, 2023.

I have attached the draft ordinance which is being requested for introduction. I have also attached 2023 Act 94. These may not be very helpful because all of the definitions use census blocks and tracts, so everything just looks like a list of numbers. District and ward maps were included in the current published code of ordinances which more help to illustrate the boundaries, and we will attach maps to this legislative file and ordinance when they have been created. Staff are currently working on the final maps, to illustrate both the current change and the 2026 districts, as well.

C. Fiscal Impact

There is some additional staff time and cost associated with printing and sorting more ballots due to the extra wards created, and some small cost for the few paper maps which are distributed, but the cost is negligible and should not have significant new fiscal impact overall.

D. Recommendation

Recommend the introduction of an ordinance amending Chapter 1.04 of the Wauwatosa Municipal Code to define modified ward and sub-ward boundaries for the purpose of compliance with newly-adopted legislative maps in 2023 Act 94, as applicable to current aldermanic districts and also 2026 aldermanic districts.

The Common Council of the City of Wauwatosa do ordain as follows:

Part I. Section 1.04.050 of the Wauwatosa Municipal Code is repealed and recreated to read in its entirety as follows:

The third aldermanic district shall consist of all that territory contained within Wards 7A, 7B, 8A, 8B and 9 in the city of Wauwatosa, Milwaukee County, as shown in the attached map of the city of Wauwatosa and more particularly described below:

B. New Polling Sites

St. Matthews Evangelical Lutheran Church

The space was great for this turnout. Staff and the Chief Inspectors have ideas for updates to the layout for the upcoming elections. Church staff was extremely accommodating. Engineering used nearby traffic cams to observe traffic flow, and have provided ideas to reduce the amount of westbound motorists entering the east entrance. Apparently, parents from nearby schools who commonly use that parking lot to pick up students had used it between 3 and 3:30 PM. We will communicate this to the School District for the November election.

Trinity Episcopal Church

The Chief Inspector reported that voters were providing positive feedback about the site, including larger voting space vs. Hart Park, easier access with one level about 25 steps from the parking space, short curb ramp into the building with an automatic door, and it was a significant improvement for voters with mobility challenges. The poll workers also liked the space, including large tables, easy access to a fully equipped kitchen, easy bathroom access.

St. Camillus

St. Camillus staff were excellent to work with. There is ample space at this facility to accommodate elections of all sizes. Additional outdoor signage at this location will likely be necessary during future elections.

Honey Creek Church

Church staff was excellent to work with. This facility has several rooms that can be utilized, as well as multiple options for the layout. Staff did receive some concerns about insufficient parking for the November election, as well as general complaints about voting taking place in a church.

Mt. Mary University

University staff were extremely accommodating and excellent to work with. There is plenty of space for both voting and line management activities. Poll workers enjoyed the friendliness of university staff, proximity to the parking lot, and easily accessible restrooms and break areas. Poll workers reported a few complaints about the location of the facility (City of Milwaukee), but also heard many compliments about the quality of the facility as compared to previous polling locations used for this district. Poll workers reported only 5 City of Milwaukee voters at the incorrect polling place. One challenge is the mix of student and voter parking on Election Days. University staff did send an email to students requesting they park in the back of lot. However, the degree to which students complied with that request was low at best.
