**Subject:** [External] Vista Village Harwood Shutdown for Crane Demobilization  
**Attachments:** C102\_ Harwood Ave Closure.pdf

Jennifer / Mark,

I stopped by Anodyne Coffee, Niemann's Candy, and Draft & Vessel yesterday and spoke with the owners/managers who were onsite. I informed them of Catalyst's planned road closure scheduled for 12/15–12/17 and reviewed the attached traffic control plan with each business. All three businesses understood the shutdown timeline and appreciated that sidewalk access will remain open. I also explained that signage will be placed to clearly indicate that all businesses remain open during the closure. A few clarifying questions were raised regarding parking availability for their patrons. I confirmed that customers will still have access to the existing public parking lots and nearby street parking. Beyond ensuring adequate signage during the shutdown, none of the businesses had additional concerns or objections.

Please let me know if this outreach and feedback is sufficient to move forward with the planned road closure or if you have any other questions.

Thank you,

**Donald Michna** | *Project Manager*
