**Re: Wauwatosa Public Library Foundation Support Request: OPAC table**

**Purpose/Need**

---

A multi-height OPAC table to increase accessibility at our existing OPAC across from the Children’s reference desk.

**Background**

---

To enhance technology access in the Children’s Library, we propose the following enhancements. EBI will commission a custom OPAC table with two heights – one at 30” and one at 36” – to replace the current OPAC table across from the Children’s reference desk that is one height – 30” – to increase accessibility and ADA friendliness in our Children’s Library.

**Project Costs**

---

	Individual cost	Items Needed	Cost
Multi-height OPAC Station	\$1,568	1	\$1,568

**Project total:**

**\$1,568**

**Recommendation**

---

A motion for the Library Board to approve submitting the proposal to the Wauwatosa Public Library Foundation Board for consideration.
