

A. Issue: Engineering is requesting approval of plans and specifications for City Contract 23-07.

B. Background & Discussion: Engineering has prepared the attached N. 115th St Improvement plans and specifications. Utility and Street improvements will be made along N. 115th St from Underwood Creek Pkwy to W. Blue Mound Rd. The project will include relay/upsizing storm sewer, rehabilitation of sanitary sewers and water main, spot repair of curb and gutter, asphalt repaving and street light replacement. A reconstructed intersection at 115th and Potter will include ADA ramps at all corners. Storm sewer will be extended down Potter Road to N. 116th Street.

Work is scheduled to begin in June, 2023 with a substantial completion by October 13, 2023. The construction will be phased to complete work along Potter Rd prior to school starting in the fall.

C. Strategic Plan (Area of Focus)

Well Maintained Infrastructure: Repair and replace the City's infrastructure at a pace that will ensure out infrastructure is in good repair within financial restraints of budgeting for generations.

D. Fiscal Impact

Project has been included in the approved 2023-2027 Capital Budget.

E. Recommendation

Staff recommends approval of the plans and specifications and authorization be granted to the City Clerk to advertise for bids on Contract 23-07, N. 115th St Improvements
