Subject: [External] Yard waste pick up

To whom it may concern,

We are 26 year Wauwatosa residents and have concerns about eliminating yard waste pick-up. Of the 3 options being considered, We vote for keeping yard waste pick-up but reducing the frequency. We have elderly residents (including us) living in our neighborhood. Some do not have the means to get their yard waste to the dump or the financial ability to pay extra to have it picked up. People are moving out of Wauwatosa due to the high taxes and decrease in services. We hope to be able to continue to afford to live in the community we love.
