

## Daycare Plan Of Operation (for our proposed addition)

We currently have 6 full time employee's for our daycare.  
The hours of operation is Monday thru  
Friday 7:00 am to 5:45 pm.

Our operation only uses ½ of the building we occupy,, and we would like to expand this into the other section.

The Project will be to add approximately 700 sq feet, of previously unused space. This will be for the purpose of adding a childrens area for 12 infants for daycare.. This will require adding 3 teachers to manage this

Parking - we have ample parking for the daycare and the addition as we have about 13 spaces available in the rear of the building. This allows for easy drop off and pickup of children .

We have a successful daycare operation that has been continuously running for 5 ½ years. Our relationship with the neighbors is good and we have had no complaints.

Our daycare is in demand , as of now we have 27 children and we need more room for increased demand. We have calls probably 3-4 times a week to enroll children. We cannot accept all and have a long waiting list. We need the addition to benefit more families.
