Subject: [External] City staff proposed council meeting changes
Date: Tuesday, June 25, 2024 2:19:55 PM

Hello,

I do not support the proposed changes that among other things will reduce Council meetings to once a month, consolidate public hearings for rezonings, zoning code text amendments and PUDs and instead of having the Council hear them, the Plan Commission does instead, modify committee meeting schedules, etc. Once again, the current council seems to be under the control of the unelected staff/Plan Commission and clearly doesn't want to hear what the public doesn't like. This limits the public's ability to voice concerns even more.

Please do not make this change. It's things like this that make Wauwatosa a less desirable place to live.

Carol Hudson
