Michael, below is my support letter. Let me know if there is anything else I can help with.

Hello,

My name is Naman Chopra, and I wanted to reach out about the potential new Casa de Corazón center on Harwood Ave. Our son is three now, but when he was younger, we tried hard to get him into the Shorewood Casa. We were on the waitlist for months and never made it in, which was really disappointing because it was one of the only programs that checked all the boxes for us.

We haven't found anything comparable since, and hearing that a Wauwatosa location might open honestly brought back a lot of hope. It would be closer to our home, and if spots become available, we'd enroll right away. Good childcare feels harder and harder to find, and we've been actively searching for something like Casa since our son was an infant.

I can't speak to traffic or parking — that's not something I'd pretend to be an expert on. I'm simply a parent who has been waiting for an option like this for a long time. I hope the project moves forward so families like ours finally have a chance to join a program we've admired from afar.

Sincerely,

Naman Chopra
