

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly from local drainage systems, and is not intended to be used as the sole source of information for possible updated or additional flood hazard information.

To obtain more detailed information in areas shown as **Base Flood Elevations (BFEs)** and/or **Flood Hazard Areas (FHAs)**, users are encouraged to consult the Flood Insurance Study (FIS) report that accompanies this FIRM. Users should refer to the FIS report for information on the BFEs and/or FHAs. These BFEs are intended for informational purposes only and should not be used as the sole source of flood elevation information. Accuracy of the BFEs and/or FHAs is not guaranteed. For more information on the FIS report for purposes of construction and/or floodplain management, users should refer to the FIS report.

Certain areas in the Special Flood Hazard Area may be protected by flood control structures. Refer to Section 2.4 of the Flood Insurance Manual of the Federal Emergency Management Agency for more information on flood control structures.

**Coastal High Water Mark (CHWM)** information is provided for the National Oceanic and Atmospheric Administration (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

Flood elevations on this map are referenced to the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

**Base Map** information shown on this FIRM was derived from the Sanborn Fire Insurance Map of 1958, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

Boundaries of the FIRM were computerized at cross sections and reprojected between cross sections. The boundaries were based on hydraulic considerations with and other pertinent boundary data are provided in the Flood Insurance Study Report for this jurisdiction.

The projection used is the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

For more information on the FIS report, users should refer to the FIS report. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

**Base Map** information shown on this FIRM was derived from the Sanborn Fire Insurance Map of 1958, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

Based on updated geographic information, this map reflects more updated and more accurate information than the previous FIRM for this jurisdiction. As a result, the Flood Insurance Study Report (FIS) report that accompanies this FIRM may reflect more current information than the previous FIS report. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

**Corporate Limits** shown on this map are based on the best data available at the time of publication. Corporate limits are shown as a solid line. Corporate limits may have changed since the map was published. Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.

Please refer to the separately printed Map Index for an overview map of the FIRM. The Map Index is available for purchase from the National Oceanic and Atmospheric Administration's (NOAA) website at [www.noaa.gov](http://www.noaa.gov). Users of this FIRM should be aware that the CHWM information is based on the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985, and the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1985.
